Mar-17	4,710	5,527	1,925	4,408	638	735	77	365	2,057	1,669	24

Note:

1. Trade data compiled by Pakistan Bureau of Statistics (PBS) and State Bank of Pakistan (SBP) may differ from each other due to the following reasons:-

- The SBP export and imports are based on realization of export proceeds and import payments made through the banking channel. Information on exports and imports unaccounted for by the banking channel are collected from the relevant sources and added to the exports/imports data reported by banks to arrive at the overall exports and imports. The trade data of PBS is, on the other hand, based on physical movement of goods crossing the custom boundaries of Pakistan
- SBP imports are free on board (f.o.b) basis whereas PBS data is on cost, insurance & freight (c.i.f) basis.

2. SA stands for Seasonally Adjusted.

3. All amounts are in million US Dollar

4. Secondary Income (Debit) do not follow seasonal patterns, so original series has been used as adjusted series.

5. Before analysing data, "Logistic Support" is subtracted from Current Account Cr. and Services Cr. which is added again after analysis. Similarly, "grants for budgetary support" is subtracted from Secondary Income Cr. and added after analysis.

Similarly, "grants for budgetary support" is subtracted from Secondary Income Cr. and added after analysis.

Note:

- Trade data compiled by Pakistan Bureau of Statistics (PBS) and State Bank of Pakistan (SBP) may differ from each other due to the following reasons:-
 - The SBP export and imports are based on realization of export proceeds and import payments made through the banking channel. Information on exports and imports unaccounted for by the banking channel are collected from the relevant sources and added to the exports/imports data reported by banks to arrive at the overall exports and imports. The trade data of PBS is, on the other hand, based on physical movement of goods crossing the custom boundaries of Pakistan
 - SBP Imports are free on board (f.o.b) basis whereas PBS data is on cost, insurance & freight (c.i.f) basis.
- SA stands for Seasonally Adjusted.
- All amounts are in million US Dollar
- Secondary Income (Debit) do not follow seasonal patterns, so original series has been used as adjusted series.
- Before analysing data, "Logistic Support" is subtracted from Current Account Cr. and Services Cr. which is added again after analysis. Similarly, "grants for budgetary support" is subtracted from Secondary Income Cr. and added after analysis.

Jun-09	2,925	3,398	1,700	2,390	271	559	53	405	950	713

Note:

1. Trade data compiled by Pakistan Bureau of Statistics (PBS) and State Bank of Pakistan (SBP) may differ from each other due to the following reasons:-

- The SBP export and imports are based on realization of export proceeds and import payments made through the banking channel. Information on exports and imports unaccounted for by the banking channel are collected from the relevant sources and added to the exports/imports data reported by banks to arrive at the overall exports and imports. The trade data of PBS is, on the other hand, based on physical movement of goods crossing the custom boundaries of Pakistan
- SBP Imports are free on board (f.o.b) basis whereas PBS data is on cost, insurance & freight (c.i.f) basis.

2. SA stands for Seasonally Adjusted.

3. All amounts are in million US Dollar

4. Secondary Income (Debit) do not follow seasonal patterns, so original series has been used as adjusted series.

5. Before analysing data, "Logistic Support" is subtracted from Current Account Cr. and Services Cr. which is added again after analysis. Similarly, "grants for budgetary support" is subtracted from Secondary Income Cr. and added after analysis.
