

INTRODUCTION

This publication provides estimates of Pakistan's import of goods and services compiled by the State Bank of Pakistan (SBP) on quarterly basis. Import payments of goods cover all payments for commodities that are imported from abroad with specified exceptions and undergo change in ownership (actual or imputed). The import of services contains all payments through banking channels for services provided by nonresidents to residents and include the services as per classification provided in BPM6.

Major part of the import payments data compiled by Statistics & DWH Department, SBP is reported by Authorized Dealers of foreign exchange under International Transaction Reporting System (ITRS) and are on mixed f.o.b. and c.i.f. basis. The imports estimates are arrived at a uniform f.o.b. valuation by deducting the element of freight and insurance estimated at 8% up till FY11, 6% from FY12 to FY15 and 3.5% from FY16 onward of total import payments through banks and adding the imports not covered by the banking channel i.e. imports financed by loans suppliers & other credits, grants etc. Estimates of imports of capital goods supplied to Pakistani branches or subsidiaries from the parent companies abroad are included based on annual survey of foreign investment. The imports under personal baggage, NRI, sales of duty free shops, land borne imports from Afghanistan and imports of Exports Processing Zone (EPZ) from the rest of world are also included.

The imports data released by SBP under BOP is mainly based on exchange records, while imports data compiled by Pakistan Bureau of Statistics (PBS) are based on flow of commodities crossing Pakistan Custom's boundaries. The BOP imports are on f.o.b. basis whereas PBS releases imports on c.i.f. basis. Majority of imports data are received from banks, however other unaccounted imports data are estimated and incorporated under head of unclassified imports, land born imports from Afghanistan, refund and rebate etc.

Data on imports payments of goods are compiled according to Harmonized System of classification. HS Coding System was developed under the auspices of the Customs Cooperation Council (CCC) now known as the World Customs Organization (WCO).

The commodities are classified according to HS classifications into twenty one sections as follows:-

1. Live Animals; Animals Products	4. Prepared Foodstuffs; Beverages, Spirits, Vinegar and Tobacco
2. Vegetable Products	5. Mineral Products
3. Animal or Vegetable Fats, Oils & Waxes	6. Products of Chemical or Allied Industries

7. Plastics and Articles thereof; Rubber and Articles thereof	13. Articles of Stone, Plaster, Cement, Asbestos, Mica or Similar Materials
8. Raw Hide and Skins, Leather, Fur Skins and Articles thereof	14. Natural or Cultured Pearls, Precious or Semi Precious Stones, Metals
9. Wood and Articles of Wood	15. Base Metals and Articles or Base Metal
10. Pulp of Wood or Other Fibrous Cellulosic Material	16. Machinery and Mechanical Appliances, Electrical Equipment & Appliances
11. Textiles and Textile Articles	17. Vehicles, Aircraft, Vessels and Associated Transport Equipment
12. Footwear, Headgear, Umbrellas, Walking Sticks	18. Optical, Photographic, Measuring, Checking, Precision Medical or Surgical Instruments
10. Pulp of Wood or Other Fibrous Cellulosic Material	19. Arms and Ammunition; Parts and Accessories thereof
11. Textiles and Textile Articles	20. Miscellaneous Manufactured Articles
12. Footwear, Headgear, Umbrellas, Walking Sticks	21. Works of Arts, Collectors, Pieces, Antiques and Special Transaction NES

Due to the increasing tendency for trade agreements to cover data of services along with the data of goods, the statistics on imports of services to support implementation of these agreements, has been included in the publication. The data will help the government and policy makers in planning and promoting trade in services. The data on trade in services that takes place between residents and non-residents is according to the definitions and classification of the of Balance of Payments Manual 6th edition (BPM6) of IMF. The BPM6 classification of services sector has the following twelve standard components:-

1. Manufacturing services on physical inputs owned by others	7. Financial services
2. Maintenance and repair services n.i.e.	8. Charges for the use of intellectual property n.i.e.
3. Transport	9. Telecommunications, computer, and information services
4. Travel	10. Other business services
5. Construction	11. Personal, cultural, and recreational services
6. Insurance and pension services	12. Government goods and services n.i.e.

Structure of the publication is as follows:-

Statement-3.1.1 shows Import of Goods by Commodity and Services by Type in equivalent Pak. Rupees.

Statement-3.1.2 shows Import of Goods by Commodity and Services by Type in equivalent U.S. Dollars.

Statement-3.2 shows Import of Goods and Services by Country.

Statement-3.3 shows Import of Goods by Country / Commodity and Services by Country / Type.

Statement-3.4 shows Import of Goods by Commodity / Country and Services by Type / Country, is only available at SBP website.

Owing to difference in coverage, timing, valuation and classification of exchange record vis- à-vis customs record; the figures in this publication are likely to differ from those released by the Pakistan Bureau of Statistics, Statistics Division of the Ministry of Economic Affairs and Statistics.

The values are rounded off to million in the “*Summary Tables*” and to thousand in other statements in the publication. Totals and Subtotals may show slight differences due to rounding off. The columns “% Share to Total”, “Growth” and “% Change” is based on complete floating decimal values.
