State Bank of Pakistan Research Bulletin aims at publishing high-quality research in the area of macroeconomics with special emphasis on monetary and exchange rate economics and policy issues, including those related to banking and finance. SBP Research Bulletin is a double blind peer reviewed (by at least one international reviewer) economics research journal. The Research Bulletin also publishes special comments, by invitation only, in its 'opinion' section and has a section on 'book reviews' as well. It is indexed & abstracted internationally.

The Research Bulletin is indexed in EconLit, which is the American Economic Association's comprehensive resource to the world's economic literature. SBP also indexes the Research Bulletin into global database of research papers in economics (RePEc).

The views expressed in the articles, opinions, and book reviews are those of the author(s) and do not necessarily reflect those of the advisory board, editors, or the State Bank of Pakistan. The accuracy of the statements, findings, or analysis of the contributions in this journal is the responsibility of the author(s).
