CITIBANK, N.A. - PAKISTAN BRANCHES
(INCORPORATED IN THE U.S.A. THE LIABILITY OF MEMBERS BEING LIMITED)
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2009

1 STATUS AND NATURE OF BUSINESS

Citibank, N.A. - Pakistan Branches (the Bank) operates as a branch of Citibank, N.A. which is a foreign banking company incorporated and domiciled in the U.S.A. with limited liability and is a member of Citigroup Inc., which is the ultimate holding company.

Credit ratings assigned to Citigroup Inc. and Citibank, N.A., by Moody's Investor Services are as follows:

	<u>Long-term senior debt</u>	<u>Short-term debt</u>	<u>Outlook</u>
Citigroup Inc.	A3	P-1	Stable
Citibank, N.A.	A1	P-1	Stable

The Bank is engaged in banking activities permissible under the Banking Companies Ordinance, 1962. Its principal office is at AWT Plaza, I. I. Chundrigar Road, Karachi and presently operates through 21 branches (December 31, 2008: 26 branches) in Pakistan.

2 BASIS OF PRESENTATION

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan has issued various circulars from time to time. Permissible forms of trade related modes of financing includes purchasing of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchase and sale arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilized and appropriate portion of mark-up there on.

3 STATEMENT OF COMPLIANCE

3.1 These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984, Banking Companies Ordinance, 1962 and the directives issued by State Bank of Pakistan (SBP). In case the requirements differ, the provisions of and directives issued under the Companies Ordinance, 1984, Banking Companies Ordinance, 1962 and the directives issued by SBP prevail.

The State Bank of Pakistan has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' for Banking Companies through BSD Circular No. 10 dated August 26, 2002 till further instructions. In addition the Securities and Exchange Commission of Pakistan has also deferred the applicability of International Financial Reporting Standard 7, Financial Instruments: Disclosures (IFRS 7) on banking companies vide SRO 411(I) / 2008 till further orders. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars.

3.2 Changes in accounting policies and disclosures - standards, interpretations and amendments to published approved accounting standards that are effective in the current year

a) IAS 1 (Revised), 'Presentation of financial statements', was issued in September 2007. The revised standard prohibits the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity. It requires non-owner changes in equity to be presented separately from owner changes in equity. All non-owner changes in equity are required to be shown in a performance statement, but entities can choose whether to present one performance statement (the statement of comprehensive income) or two statements (the income statement and statement of comprehensive income). Where entities restate or reclassify comparative information, they are required to present a restated statement of financial position as at the beginning comparative period, in addition to the current requirement to present statements of financial position at the end of the current period and comparative period.

The Bank has applied IAS 1(revised) during the current period, and has accordingly changed its accounting policy to comply with the new requirements of IAS. The Bank has elected to show elements of comprehensive income in a separate statement. The change in presentation has not affected the net assets of the Bank for either the current or any of the prior periods and there is no impact on the earnings of the Bank.

- b)** IAS 23 (Amendment) 'Borrowing Costs' (effective from January 1, 2009). This standard requires an entity to capitalise borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset (one that takes a substantial period of time to get ready for use or sale) as part of the cost of that asset. The option of immediately expensing those borrowing costs has been removed. Further, the definition of borrowing cost has been amended so that interest expense is calculated using the effective interest method defined in IAS 39 'Financial instruments: Recognition and Measurement'.

During the year the Bank has changed its accounting policy in respect of borrowing costs to comply with the requirements of IAS 23 (Amendment), "Borrowing Costs". Previously, borrowing costs were recognised as an expense in the period in which they were incurred. IAS 23 (Amendment) applies to qualifying assets for which the commencement date for capitalization is on or after January 1, 2009 and does not affect qualifying assets for which the commencement date for capitalisation is earlier than the transition date. The Bank did not have any qualifying assets whose commencement date for capitalisation was on or after January 1, 2009. Accordingly, the change in accounting policy has had no effect on the financial statements of the Bank for the current or prior years.

- c)** IAS 19 (Amendment), 'Employee benefits' (effective from January 1, 2009).
- The amendment clarifies that a plan amendment that results in a change in the extent to which benefit promises are affected by future salary increases is a curtailment, while an amendment that changes benefits attributable to past service gives rise to a negative past service cost if it results in a reduction in the present value of the defined benefit obligation.
 - The definition of return on plan assets has been amended to state that plan administration costs are deducted in the calculation of return on plan assets only to the extent that such costs have been excluded from measurement of the defined benefit obligation.
 - The distinction between short term and long term employee benefits will be based on whether benefits are due to be settled within or after 12 months of employee service being rendered.
 - IAS 37, 'Provisions, contingent liabilities and contingent assets', requires contingent liabilities to be disclosed, which are not recognised. IAS 19 has been amended to be consistent.

The Bank has adopted the aforementioned amendments from January 1, 2009. The management of the Bank believes that this amendment does not have any impact on the Bank's financial statements.

- d)** IAS 36 (Amendment), 'Impairment of assets' (effective from January 1, 2009). As per the new requirements, where fair value less costs to sell is calculated on the basis of discounted cash flows, disclosures equivalent to those for value-in-use calculation should be made. The Bank has adopted the aforementioned amendments from January 1, 2009. The management of the Bank believes that presently this amendment does not have any impact on the Bank's financial statements.
- e)** IAS 38 (Amendment), 'Intangible assets' (effective from January 1, 2009). The amended standard states that a prepayment may only be recognised in the event that payment has been made in advance of obtaining right of access to goods or receipt of services. The Bank has adopted the aforementioned amendments from January 1, 2009. The management of the Bank believes that this amendment does not have any impact on the Bank's financial statements.
- f)** IFRS 2 (Amendment), 'Share-based payment' (effective from January 1, 2009). The amended standard deals with vesting conditions and cancellations. It clarifies that vesting conditions are service conditions and performance conditions only. Other features of a share-based payment are not vesting conditions. These features would need to be included in the grant date fair value for transactions with employees and others providing similar services; they would not impact the number of awards expected to vest or valuation thereof subsequent to grant date. All cancellations, whether by the entity or by other parties, should receive the same accounting treatment. The Bank has adopted the aforementioned amendments from January 1, 2009. The management of the Bank believes that presently this amendment does not have any impact on the Bank's financial statements.
- g)** IFRIC 13, "Customer Loyalty Programmes" (effective from financial years beginning on or after July 1, 2008). As per IFRIC 13 where goods or services are sold together with a customer loyalty incentive, the arrangement is a multi-element arrangement and the consideration receivable is allocated between the components of the arrangement using fair values. If a third party supplies the awards and the entity is collecting the consideration on its own account, it shall measure its revenue as the gross consideration allocated to the award credits and recognise the revenue when it fulfils its obligations in respect of the awards.

The Bank has adopted IFRIC 13 from January 1, 2009. The management of the Bank believes that the adoption of this interpretation has not made any material impact on the financial statements.

- h) There are other amendments to the approved accounting standards and interpretations that are mandatory for accounting periods beginning on or after January 1, 2009 but are considered not to be relevant or to have any significant effect on the Bank's operations and are therefore not detailed in these financial statements.

3.3 IFRS 8 'Operating segments', (effective from January 1, 2009). IFRS 8 replaces IAS 14, 'Segment reporting'. The new standard requires a 'management approach', under which segment information is presented on the same basis as that used for internal reporting purposes. In addition, segments are reported in a manner that is more consistent with the internal reporting provided to the chief operating decision-maker. All banking companies in Pakistan are required to prepare their annual financial statements in line with the format prescribed under BSD Circular No. 4 dated February 17, 2006, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended December 31, 2006. The management of the Bank believes that as the SBP has defined the segment categorisation in the above mentioned circular, the SBP requirements prevail over the requirements specified in IFRS 8. Accordingly, segment information disclosed in these financial statements is based on the requirements laid down by SBP.

3.4 Standards, interpretations and amendments to published approved accounting standard that are not yet effective

The following standards, amendments and interpretations to existing standards have been published and are mandatory for the Bank's accounting periods beginning on or after July 1, 2009:

IFRIC 18 'Transfers of assets from customers' was issued in January 2009 and is applicable for financial years beginning on or after July 1, 2009. It clarifies how to account for transfers of items of property, plant and equipment by entities that receive such transfers from their customers. The interpretation also applies to agreements in which an entity receives cash from a customer when that amount of cash must be used only to construct or acquire an item of property, plant and equipment, and the entity must then use that item to provide the customer with ongoing access to supply of goods and/or services. At present, the management believes that the afore-mentioned interpretation is not expected to have any impact on the Bank's financial statements.

IFRS 5 (amendment), 'Measurement of non-current assets (or disposal groups) classified as held-for-sale' (effective on or after January 1, 2010). The amendment provides clarification that IFRS 5 specifies the disclosures required in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations. It also clarifies that the general requirement of IAS 1 still apply, particularly paragraph 15 (to achieve a fair presentation) and paragraph 125 (sources of estimation of uncertainty) of IAS 1. The Bank will apply IFRS 5 (amendment) from 1 January 2010. The management is presently assessing the impact of this amendment on the Bank's financial statements.

There are certain other new standards, amendments and interpretations that are mandatory for accounting periods beginning on or after January 1, 2010 or later periods but are considered not to be relevant or to have any significant effect on the Bank's operations and are therefore not disclosed in these financial statements.

3.5 Early adoption of standards

The Bank did not early adopt any new or amended standards in 2009.

4 BASIS OF MEASUREMENT

4.1 Accounting convention

These financial statements have been prepared under the historical cost convention except that held for trading and available for sale investments and derivative financial instruments are measured at fair value.

The financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency. The amounts are rounded to the nearest thousand.

4.2 Critical accounting estimates and judgements

The preparation of financial statements in conformity with approved accounting standards as applicable in Pakistan requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses. It also requires management to exercise judgement in application of its accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

Significant accounting estimates and areas where judgements were made by the management in the application of accounting policies are as follows:

- i) classification and provisioning against investments (notes 5.3 and 9)
- ii) classification and provisioning against advances (notes 5.4 and 10)
- iii) income taxes (notes 5.8 and 30)
- iv) accounting for defined benefit plan (notes 5.9 and 33)
- v) depreciation / amortisation of fixed assets (notes 5.5 and 11)

5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

5.1 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement represent cash and balances with treasury banks, balances with other banks and overdrawn accounts.

5.2 Lendings to / borrowings from financial institutions

The Bank enters into transactions of repos and reverse repos at contracted rates for a specified period of time. These are recorded as under:

(a) Sale of securities under repurchase agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the financial statements as investments and the counterparty liability for amounts received under these agreements is included in borrowings from financial institutions. The difference between sale and repurchase price is recognised over the period of transaction as an expense.

(b) Purchase of securities under resale agreements

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised as investments in the balance sheet. Amounts paid under these agreements are included in lendings to financial institutions. The difference between purchase and resale price is recognised over the period of transaction as income.

(c) Other lendings

These are recorded at the proceeds paid. Mark-up received is charged to the profit and loss account over the period on accrual basis.

5.3 Investments

The bank classifies its investments as follows:

(a) Held for trading

These are securities, which are either acquired for generating a profit from short-term fluctuations in market prices, interest rate movements, dealer's margin or are securities included in a portfolio in which a pattern of short-term profit making exists.

(b) Held to maturity

These are securities with fixed or determinable payments and fixed maturity in respect of which the Bank has the positive intent and ability to hold them till maturity.

(c) Available for sale

These are investments that do not fall under the 'held for trading' or 'held to maturity' categories.

Investments are initially recognised at fair value. All purchases and sales of investments that require delivery within the time frame established by regulation or market convention are recognised at trade date, which is the date on which the Bank commits to purchase or sell the investments.

In accordance with the requirements of State Bank of Pakistan, quoted securities other than those classified as 'held to maturity' are subsequently remeasured to market value. Surplus / (deficit) arising on revaluation of securities classified as 'available for sale' is taken to a separate account shown in the balance sheet below equity. Surplus / (deficit) arising on revaluation of securities classified as 'held for trading' is taken to the profit and loss account. In accordance with the requirements specified by the State Bank of Pakistan, investments classified as 'held to maturity' are carried at amortized cost.

Investment in unquoted equity securities are stated at cost less impairment.

Impairment loss in respect of investments classified as available for sale (except term finance certificates) and held to maturity is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. Provision for diminution in the value of term finance certificates is made as per the Prudential Regulations issued by the State Bank of Pakistan. In case of impairment of available for sale securities, the cumulative loss that has been recognised directly in surplus on revaluation of securities on the balance sheet below equity is removed therefrom and recognised in the profit and loss account. For investments classified as held to maturity, the impairment loss is recognised in profit and loss account.

The difference between the face value and purchase price is amortised over the remaining life of the investment using effective yield method, in order to determine amortised cost.

Gains and losses on disposal of investments during the year is taken to the profit and loss account.

5.4 Advances

Advances are stated net of provisions against non-performing advances. Specific and general provisions are made in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan from time to time. The net provision made / reversed during the year is charged to the profit and loss account and accumulated provision is netted-off against advances.

5.5 Operating fixed assets

Capital work in progress

Capital work in progress is stated at cost less impairment losses, if any.

Tangible

Fixed assets are carried at historical cost less accumulated depreciation and accumulated impairment losses, if any except for lease hold land which is stated as cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is charged to income applying the straight-line method using the rates specified in note 11.2 to these financial statements. The depreciation charge for the year is calculated after taking into account residual value, if any. The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at each balance sheet date. Depreciation on additions is charged for the whole month if the assets are purchased before 15th day of the month while no depreciation is charged in the month in which assets are disposed off.

Maintenance and normal repairs are charged to income as and when incurred. Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably.

Gain and loss on disposal of fixed assets is taken to profit and loss account.

Intangible

Intangible assets having a finite useful life are stated at cost less accumulated amortization and accumulated impairment losses, if any. Such intangible assets are amortized using the straight-line method over their estimated useful lives. The useful lives and amortization method are reviewed and adjusted, if appropriate at each balance sheet date. Intangible assets having an indefinite useful life are stated at acquisition cost, less impairment loss, if any.

Amortisation is charged to income applying the straight-line method using the rates specified in note 11.3 to these financial statements.

5.6 Non-Current Assets Held for Sale

The Bank classifies a non-current asset (or disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use.

A non-current asset (or disposal group) held for sale is carried at the lower of its carrying amount and the fair value less costs to sell. Impairment losses are recognized through the profit and loss account for any initial or subsequent write down of the non-current asset (or disposal group) to fair value less costs to sell. Subsequent gains in fair value less costs to sell are recognized to the extent they do not exceed the cumulative impairment losses previously recorded. A non-current asset is not depreciated while classified as held for sale or while part of a disposal group classified as held for sale.

5.7 Impairment

The carrying amount of assets are reviewed at each balance sheet date for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. If such indication exists, and where the carrying value exceeds the estimated recoverable amount, assets are written down to their recoverable amount. The resulting impairment loss is taken to the profit and loss account.

5.8 Taxation

Income tax expense comprises of current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items which are directly recognised in equity, in such cases, the relating income tax is also directly recognised in equity.

Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing laws for taxation on income. The charge for current tax also includes adjustments, where considered necessary relating to prior years, which arises from assessments / developments made during the year.

Deferred

Deferred tax is recognised using balance sheet liability method on all temporary differences between the amounts attributed to assets and liabilities for financial reporting purposes and amounts used for taxation purposes. Deferred tax is calculated at the rates that are expected to apply to the period when the differences are expected to reverse, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the assets can be utilised.

The carrying amount of deferred tax asset is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

The Bank also recognises a deferred tax asset / liability on the deficit / surplus on revaluation securities, which is adjusted against the related surplus / deficit in accordance with the requirements of the International Accounting Standard 12 - Income Taxes.

5.9 Staff retirement benefits

Defined benefit plan

The bank operates an approved funded gratuity scheme for all its permanent employees whose period of the service with the Bank is five years or more. Expenses relating to the scheme are recognised and contributions to the fund are made based on actuarial recommendations.

A portion of actuarial gains and losses is recognised over the expected average remaining working lives of employees if the net cumulative unrecognised actuarial gains and losses at the end of previous reporting period exceed the "corridor" defined as greater of:

- (a) 10% of the present value of the defined benefit obligation at that date (before deducting plan assets), and
- (b) 10% of the fair value of plan assets at that date.

Gratuity is payable to staff on completion of the prescribed qualifying period of service under the plan.

Defined contribution plan

The Bank operates a recognised provident fund scheme for all its permanent employees to which equal monthly contributions are made both by the Bank and employees at the rate of 10 percent of basic salary. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

5.10 Share based payments

The Bank offers two types of share based incentive plans which are Stock Award and Stock Option programmes. Under these plans, the share / option of the holding company are granted by the holding company to high performing employees of the Bank. Pursuant to a separate agreement the Bank makes a cash settlement to Citigroup Inc. for the value of the share-based incentive awards delivered to the Bank's employees under these plans.

The Bank applies equity-settled accounting for its share based incentive plans, with separate accounting for its associated obligations to make payments to Citigroup Inc.

Fair value of the shares awarded under the stock award programme, on the grant date and on each measurement date, is determined with reference to the price quoted on the New York Stock Exchange.

5.11 Borrowings / deposits and their cost

- a) Borrowings / deposits are recorded at the proceeds received.
- b) Borrowing / deposit costs are recognised as an expense in the period in which these are incurred using effective mark-up / interest rate method to the extent that they are not directly attributable to the acquisition of or construction of qualifying assets. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (or that takes a substantial period of time to get ready for use or sale) are capitalised as part of the cost of that asset.

5.12 Provisions

Provision for guarantee claims and other off balance sheet obligations is recognised when intimated and reasonable certainty exists for the Bank to settle the obligation. Expected recoveries are recognised by debiting the customer's account. Charge to profit and loss account is stated net-of expected recoveries.

Other provisions are recognised when the Bank has a legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

5.13 Revenue recognition

Mark-up / return / interest on advances and investments is recognized on an accrual basis using effective interest method, except in the case of non-performing advances where income is recognised on receipt basis in compliance with the Prudential Regulations issued by the State Bank of Pakistan.

Where debt securities are purchased at a premium or discount, those premiums / discounts are amortised through the profit and loss account over the remaining maturity, using the effective yield method.

Fee and commission are recognised as and when services are performed.

Gains and losses on sale of investments and operating fixed assets are recognised in the profit and loss account when the risks and rewards of ownership are transferred.

Dividend income is recognised when the Bank's right to receive the dividend has been established.

5.14 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at fair value using appropriate valuation techniques. All derivative financial instruments having positive fair value are carried as assets and instruments having negative fair value are carried as liabilities. Any change in the fair value of derivative financial instruments is taken to profit and loss account.

5.15 Foreign currencies

Foreign currency transactions are recorded at the exchange rates prevailing on the transaction date. All monetary assets and liabilities in foreign currencies are revalued daily into rupees using spot exchange rates published by the State Bank of Pakistan. The forward foreign exchange contracts and swaps are valued using forward rates applicable to their respective remaining maturities.

Exchange gains and losses are included in income currently, except for gain or loss arising on revaluation of capital account which is taken to equity.

Commitments for outstanding forward foreign exchange contracts are disclosed in the financial statements at contracted rates. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the balance sheet date.

5.16 Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the financial statements only when there is a legally enforceable right to offset the recognised amounts and the Bank intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Income and expense items of such assets and liabilities are also off-set and the net amount is reported in the financial statements.

5.17 Financial assets and financial liabilities

The Bank initially recognises financial assets and liabilities on the date at which they originate except for investments which are recognised on the trade date.

Financial assets are derecognised when the contractual rights to the cash flows from the asset expire or are transferred. The bank also enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or part of the risks and rewards of the transferred assets. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognised from the balance sheet.

Financial liabilities are derecognised when the contractual obligations expire, or are discharged or cancelled.

5.18 Assets acquired in satisfaction of claims

The Bank occasionally acquires vehicles and other assets in settlement of certain advances. These are stated at the lower of related advances and the current fair value of such assets. Gains or losses on disposal and unrealized losses on revaluation are recognised in income currently. In case certain repossessed assets cannot be disposed of within pre-determined number of days, impairment loss is recognised by the Bank against such assets.

5.19 Acceptances

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. The bank expects most acceptances to be simultaneously settled with the reimbursement from the customers. Acceptances are accounted for as off balance sheet transactions and are disclosed as contingent liabilities and commitments.

5.20 Segment reporting

A segment is a distinguishable component of the Bank that is engaged either in providing product or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risk and rewards that are different from those of the other segments. The operations of the Bank are currently based in Pakistan, therefore geographical segment is not relevant.

5.20.1 Business segments

Trading and sales

It includes fixed income, foreign exchange, funding, own position securities, lending, borrowing and derivatives.

Retail banking

It includes retail lending, deposits, banking services and credit card business.

Corporate banking

Corporate banking includes syndicated financing and services provided in connection with merger and acquisitions, project finance, export finance, trade finance, short-term and long-term lending, bill discounting and negotiation, letter of credit, acceptances, guarantees and deposits.

6.1 The local currency current account is maintained with the State Bank of Pakistan (SBP) as per the requirements of Section 36 of the State Bank of Pakistan Act, 1956. This section requires banking companies to maintain a local currency cash reserve in the current account opened with the SBP at a sum not less than such percentage of its time and demand liabilities in Pakistan as may be prescribed by SBP.

6.2 As per BSD Circular No. 9 dated December 03, 2007, cash reserve of 5% is required to be maintained with State Bank of Pakistan on deposits held under the New Foreign Currency Accounts Scheme (FE-25 deposits).

6.3 Special cash reserve of 15% is required to be maintained with State Bank of Pakistan on FE-25 deposits as specified in BSD Circular No. 14 dated June 21, 2008. Profit rates on these deposits are fixed by SBP on a monthly basis. During the year this deposit was not remunerated (2008: 0.90% to 3.4% per annum).

10.3.1 During the year the State Bank of Pakistan (SBP) has introduced certain amendments in the Prudential Regulations in respect of maintenance of provisioning requirements against non-performing loans and advances vide BSD Circular No. 10 dated October 20, 2009. Under the revised guidelines issued by SBP, banks have been allowed to avail the benefit of 40% of forced sales value of pledged stocks and mortgaged commercial, residential and industrial properties held as collateral against all non-performing loans for 3 years from the date of classification for calculating provisioning requirement with effect from September 30, 2009. However, as per the Circular the additional impact on profitability arising from availing the benefit of forced sales value against pledged stocks and mortgaged residential, commercial and industrial properties would not be available for remittance of profits. Under the previous guidelines issued by SBP which were effective from December 31, 2008, banks were allowed to avail the benefit of 30% of forced sales value of pledged stocks and only mortgaged residential and commercial properties only held as collateral against all non-performing loans for 3 years from the date of classification for calculating provisioning requirement. The benefit of discounted forced sales value of mortgaged industrial properties was previously not available to the banks for calculating provisioning requirement.

Had the provision against non-performing loans and advances been determined in accordance with the previously laid down requirements of SBP, the specific provision against non-performing loans would have been higher and consequently profit before taxation and advances (net of provisions) as at December 31, 2009 would have been lower by approximately Rs. 11.443 million. The additional profit arising from availing the FSV benefit - net of tax at December 31, 2009 which is not available for remittance of profits amounted to approximately Rs. 29.753 million (2008:42.931 million).

10.3.2 General provision against consumer loans represents provision maintained at an amount equal to 1.5% of the fully secured performing portfolio and 5% of the unsecured performing portfolio as required by the Prudential Regulations issued by the State Bank of Pakistan.

10.3.3 Particulars of provision against advances

	2009			2008		
	Specific	General	Total	Specific	General	Total
	------(Rupees in '000)-----					
In local currency	<u>2,486,006</u>	<u>473,818</u>	<u>2,959,824</u>	<u>1,173,983</u>	<u>605,082</u>	<u>1,779,065</u>

10.3.4 Although the Bank has made provision against its non-performing portfolio as per the category of classification of the loan, the Bank holds enforceable collateral in the event of recovery through litigation for financing other than credit cards and personal loans. These securities comprise of charge against various tangible assets of the borrower including land, building and machinery, stock in trade etc.

10.3.5 During the year the Bank has revised the manner in which impairment loss on consumer loans that are over due by more than 120 days in the case of auto and personal loans and by more than 180 days in the case of credit cards is reflected in the financial statements. As per the revised practice, which was adopted from October 2009, the management has decided to recognise impairment loss on such consumer loans through the use of an allowance / provision account. Previously these consumer loans were written off directly after the afore mentioned pre-determined number of days past due. The management believes that the revised practice represents a more reasonable way to account for the impairment loss. However, this change has not impacted the profit for the year ended December 31, 2009.

	Note	2009 (Rupees in '000)	2008
10.4 Particulars of write-offs

		<u>2,105,144</u>	<u>4,123,019</u>

10.5 Details of loan write off of Rs. 500,000 and above

In terms of sub-section (3) of Section 33A of the Banking Companies Ordinance, 1962 the Statement in respect of written-off loans or any other financial relief of five hundred thousand rupees or above allowed to person(s) during the year ended December 31, 2009 is given in Annexure-I. These loans are written off as a book entry without prejudice to the Bank's right of recovery against the customers.

10.6 Non - current assets held for sale

As at December 31, 2009, the Bank has classified its mortgage and auto loans (amounting to Rs.2,957.958 million) as 'assets held of sale'. This is consequent to the Bank's decision to exist from these businesses.

11.2.1 The cost of fully depreciated assets still in use amounts to Rs. 561.859 million (2008: Rs. 559.757 million).

11.2.2 During the year the Bank decided to close down five of its branches at Sialkot, Multan, Gujranwala, Jhelum and Hyderabad effective from September 1, 2009. Pursuant to this decision the management has recognised an accelerated depreciation of Rs. 73.484 million on certain fixed assets located at these branches.

11.2.3 The fair value of leasehold land and buildings is Rs. 235.332 million (2008: Rs. 249.214 million) based on revaluation of two such properties carried out on March 05, 2008 and November 20, 2008.

- 12.2** The Finance Act, 2009 has made significant amendments in the Seventh Schedule to Income Tax Ordinance, 2001. Through these amendments the deduction for provisions for advances and off balance sheet items will be allowed upto 1% of total advances. The amendments introduced in the Seventh Schedule and not provide for any transitional mechanism i.e. how and when the provision for bad debts disallowed upto December 31, 2007 would be allowed as a deduction. The matter was taken up by the Pakistan Banks Association (PBA) and the Institute of Chartered Accountants of Pakistan (ICAP) with the Federal Board of Revenue (FBR). FBR vide its letter reference F.No. 4(1)ITP/2008-49 dated December 23, 2009 has informed ICAP that it has decided to insert a new Rule 8(a) in Seventh Schedule to allow for amounts provided for in tax year 2008 and prior to said tax year for doubtful debts, which were neither claimed nor allowed as tax deductible in any year shall be allowed as deduction in tax year in which such doubtful debts are written off.

However, to date no SRO has been issued to incorporate the agreed amendments to the Seventh Schedule. The Bank based on advise of its tax consultant has treated the FBR commitment as effective. Accordingly, the Bank has maintained the amount of deferred tax asset of Rs 1,183.546 million recognised on provisions against loans, advances and off-balance sheet obligations disallowed as a tax deduction upto tax year 2008 after taking into account the related recoveries pertaining to such loans and advances made subsequent to tax year 2008.

With reference to allowability of provision upto 1% of total advances, the management has carried out an exercise at period end and concluded that full deduction of provision in succeeding years would be allowed and accordingly recognised deferred tax asset on such provision.

16.2.1 The Bank has entered into agreement for financing with the State Bank of Pakistan (SBP) for extending export finance to customers. As per the agreement, the Bank has granted SBP the right to recover the outstanding amount from the Bank at the date of maturity of the finance by directly debiting the current account maintained by the Bank with SBP. This facility is secured against demand promissory note executed in favour of SBP. These borrowings carry mark-up of 6.5 percent (2008: 6.5 percent) per annum payable on quarterly basis.

16.2.2 These borrowings have been made from SBP under the scheme for providing long term finance to customers for export oriented projects. As per the agreements with SBP, the Bank has granted SBP the right to recover the outstanding amount from the Bank at the date of maturity of the finance by directly debiting the current account maintained by the Bank with SBP. This facility is secured against demand promissory note executed in favour of SBP. The mark up rate of this facility ranges from 4% to 5% (2008: 4% to 5%) per annum payable on a quarterly basis.

16.2.3 These represent repurchase agreement borrowings from other banks and carry mark up at the rates ranging from 11.97% to 12.50% (2008: 12%) per annum and having maturities up to January 2010 (2008: January 2009).

16.2.4 These borrowings carry mark-up at rates ranging from 12.1% to 12.6% (2008: 12.50% to 15.50%) per annum and having maturities up to May 2010 (2008: January 2009).

22 DERIVATIVE INSTRUMENTS

A derivative financial instrument is a contract the value of which is determined by reference to one or more underlying financial instruments, reference rates or indices. Forward contracts, options and swaps are the most common types of derivatives. Also included in derivatives are structured financial products that have one or more characteristics of forwards, futures, swaps and options.

The Bank enters into derivatives contracts for market making and for creating effective hedges to enable customers and the Bank to transfer, modify or reduce their interest rate and foreign exchange risks. The Bank as an Authorized Derivative Dealer (ADD) is an active participant in the derivative market of Pakistan.

Overall responsibility for derivatives trading activity lies with the treasury. Existence of an independent market risk function together with the Asset Liability Committee (ALCO) assists in the identification and quantification of risks on derivatives. This involves:

- co-ordinating approvals of market risk limits;
- formulation of policies and procedures with respect to market risk; and
- monitoring of market risk and credit risk exposure.

Treasury operations records transactions in the books, while finance reports the price and liquidity information independently.

The risk embedded in derivatives transactions are discussed in note 41.

The income tax assessments of the Bank have been finalised upto and including tax year 2009. Matters of disagreement exist between the Bank and tax authorities for various assessment / tax years and are pending with the Commissioner of Income Tax (Appeals) and the Income Tax Appellate Tribunal (ITAT).

The issues mainly relate to addition of mark-up in suspense to income, bad debts written off and disallowances relating to various profit and loss expenses and payments for support services from regional office. However, adequate provision has been made in these financial statements in respect of these matters.

33 DEFINED BENEFIT PLAN			
33.1 General description			

All permanent employees with a minimum service period of five years or more with the Bank are entitled to end of service benefits calculated at 130 percent of basic salary for each year of service with the Bank. The assets of the funded plan are held independently in a separate trustee administered fund.

33.2 Principal actuarial assumptions

The latest actuarial valuation was carried out as at December 31, 2009 using the Projected Unit Credit Method. The main assumptions used for the actuarial valuation were as follows:

	2009	2008
Discount rate	13.25%	15%
Estimated return on plan assets of the fund - per annum	13%	15%
Estimated salary increase - per annum	10%	10%
Estimated service length of the employees	11 years	12 years
	Note

33.11 The expected contribution to the gratuity fund for the next year commencing January 1, 2010 is Rs. 33.035 million (2009: Rs. 41.440 million).

34 DEFINED CONTRIBUTION PLAN

All permanent employees of the Bank are entitled to end of service benefits through a recognised provident fund, whereby the Bank and all permanent employees are required to make monthly contributions to the scheme at 10 percent of basic salary.

During the year, the Bank contributed Rs 53.388 million (2008: Rs 59.339 million) in respect of the defined contribution plan.

35 SHARE-BASED INCENTIVE PLANS

The Bank offers a number of share based incentive plans to attract, retain and motivate employees, to compensate them for their contributions to the Bank, and to encourage employee stock ownership.

35.1 Stock option programme

Information with respect to stock option activity under the stock option programme is as follows:

	2009		2008	
	Options (Number of shares)	Weighted average share price \$ USD	Options (Number of shares)	Weighted average share price \$ USD
Outstanding at the beginning of the year	23,478	40.93	80,197	38.94
Granted	63,955	4.08	-	-
Forfeited	(2,978)	47.22	(31,075)	43.34
Exercised	-	-	-	-
Transfers	-	-	(12,892)	41.55
Expired	(10,270)	32.05	(12,752)	21.92
Outstanding at the end of the year	<u>74,185</u>	<u>10.14</u>	<u>23,478</u>	<u>40.93</u>
Exercisable at the end of year	<u>10,230</u>	<u>48.01</u>	<u>23,478</u>	<u>40.93</u>

No share options were exercised during the year (2008: No option exercised).

35.2 The following table summarises the information about stock options outstanding under the programme at December 31, 2009:

Range of exercise prices	Shares Outstanding	Options outstanding		Options exercisable	
		Weighted average contractual life remaining	Weighted average exercise price \$ USD	Number Exercisable	Weighted average exercise price \$ USD

	<u>74,185</u>	<u>5.08</u>	<u>10.14</u>	<u>10,230</u>	<u>48.01</u>

The following table summarises the information about stock options outstanding under the programme at December 31, 2008:

Range of exercise prices	Options outstanding			Options exercisable	
	Shares Outstanding	Weighted average contractual life remaining	Weighted average exercise price \$ USD	Number Exercisable	Weighted average exercise price \$ USD
< \$30.00	-	-	-	-	-
\$30.00 - \$39.99	10,270	0.12	32.05	10,270	32.05
\$40.00 - \$49.99	13,208	1.34	47.83	13,208	47.83
\$50.00 and above	-	-	-	-	-
	<u>23,478</u>	<u>0.80</u>	<u>40.93</u>	<u>23,478</u>	<u>40.93</u>

35.3 Stock award programme

The Bank offers a stock award programme, under which shares are awarded in the form of restricted or deferred stock to certain employees. During the applicable vesting period, the shares awarded cannot be sold or transferred by the employees, and the award is subject to cancellation if the employment is terminated. Stock awards granted generally vest over a four year period.

Information with respect to unvested stock awards is as follows:

	2009		2008	
	Shares	Weighted average share price \$ USD	Shares	Weighted average share price \$ USD
Unvested at the beginning of the year	39,143	32.92	22,571	51.89
Awards	27,007	4.67	28,518	26.31
Cancellations	(257)	31.29	(10,264)	37.28
Deletions	-	-	-	-
Vestings	(11,782)	37.45	(1,682)	49.15
Unvested at the end of the year	<u>54,111</u>	<u>19.27</u>	<u>39,143</u>	<u>32.92</u>

- 35.4 Net reversal of Rs.16.930 million (2008: Rs. 29.001 million) was recognised in equity arising mainly due to fair value adjustment as required by IFRS 2 - Share Based Payment. As of December 31, 2009 recognised liability for outstanding share based incentive plans was Rs. 56.031 million (2008: Rs. 53.298 million). Fair value of shares has been determined on the basis of market value of shares of Citigroup Inc. as at December 31, 2009. i.e. \$ USD 3.31 (2008: \$ USD 6.71) per share.

36 COMPENSATION OF CHIEF EXECUTIVE AND EXECUTIVES

	Chief Executive Officer*		Executives	
	2009	2008	2009	2008
	----- (Rupees in '000) -----

Charge for defined benefit plan	851	894	26,075	27,213
Contribution to defined contribution plan	1,022	825	31,302	32,669
Rent and house maintenance	4,088	3,300	127,009	137,676
Utilities	2,169	981	77,035	42,689
Medical	143	101	6,787	22,073
Others	6,781	1,084	12,528	7,639
	<u>47,696</u>	<u>39,490</u>	<u>720,130</u>	<u>1,024,919</u>
Number of persons	<u>1</u>	<u>2</u>	<u>280</u>	<u>298</u>

* Remuneration of the Chief Executive Officer in the year 2008 includes amount charged in respect of ex-Chief Executive Officer

The Bank also provides free use of furnished accommodation to the Chief Executive and bank maintained cars to the Chief Executive and certain Executives.

37 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

The fair value of traded investments other than those classified as held to maturity is based on quoted market price. Fair value of unquoted equity investments is determined on the basis of break-up value of these investments as per the latest available audited financial statements.

Fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 5.4 to these financial statements.

The repricing profile, effective rates and maturity are stated in note 41 to these financial statements.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short term in nature or in the case of customer loans and deposits are frequently repriced.

38 SEGMENT DETAILS WITH RESPECT TO BUSINESS ACTIVITIES

The Chief Operating Decision Maker (CODM) is the Managing Director and Citi Country Officer of the bank. The segment analysis with respect to business activity presented to the CODM is as follows:

	2009			
	Trading & Sales	Retail Banking	Corporate Banking	Total
	------(Rupees in '000)-----			
Total Income	4,549,536	4,457,128	3,426,647	12,433,311

Contribution to staff retirement benefit funds	95,471	110,492
Sale of fixed assets	7	-

40 CAPITAL-ASSESSMENT AND ADEQUACY

40.1 Capital Management

The Bank manages its capital under the Basel II Standardised approach. The Bank has adopted Standardized Approach for credit and market risk whereas Basic Indicator Approach has been adopted for the operational risk under the Basel II accord.

The objective of managing capital is to safeguard the Bank's ability to continue as a going concern, so that it could continue to provide adequate returns to investors by pricing products and services commensurately with the level of risk. It is the policy of the Bank to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

Statutory minimum capital requirement and management of capital

The State Bank of Pakistan through its BSD Circular No. 07 dated April 15, 2009 has prescribed the minimum paid-up capital (net of losses) for Banks / Development Finance Institutions to be raised to Rs.10 billion by the year ending December 31, 2013. The raise is to be achieved in a phased manner requiring Rs. 10 billion capital (net of losses) by the end of the financial year 2013. However branches of foreign banks operating in Pakistan whose head office holds paid-up capital (free of losses) of atleast US\$ 300 million, have a CAR of 8% or minimum prescribed by home regulator and have prescribed number of branches, are allowed to maintain lower amount with prior approval of SBP. In this regard the Bank has obtained SBP's approval to maintain minimum required capital of Rs. 6 billion (net of losses) effective December 31, 2010.

The Head office capital account of the Bank for the year ended December 31, 2009 stands at Rs 6.781 billion and is in compliance with the SBP requirement for the said year. In addition the banks are also required to maintain a minimum Capital Adequacy Ratio (CAR) of 10% of the risk weighted exposures of the Bank. The Bank's CAR as at December 31, 2009 was 15.06% of its risk weighted exposure.

40.2 Capital Structure

The Bank's regulatory capital is analyzed into three tiers:

- Tier I capital, which includes head office capital under sub-section 2 of section 13 of the Banking Companies Ordinance, 1962, other reserves and retained profit. Goodwill, book value of intangibles and revaluation deficit on securities are deducted from Tier I capital.
- Tier II capital includes general provisions or general reserves for loan losses (up to a maximum of 1.25% of risk weighted assets) and revaluation reserve on equity investments after deduction of deficit on available for sale securities (up to a maximum of 45% of balance).
- Tier III capital - the Bank has no eligible Tier III capital.

The total of Tier II and Tier III capital has to be limited to Tier I capital.

The Bank has complied with all externally imposed capital requirements throughout the period.

The Capital of the Bank can be analyzed as follows:

Regulatory capital base	2009	2008
	------(Rupees in '000)-----	
Tier I Capital		
Head office capital account	6,780,848	7,742,345
Reserves	92,715	75,785
Unappropriated / unremitted profits (net of losses)	1,778,573	1,686,600
	8,652,136	9,507,730
Less: Deductions		
- Book value of intangibles *	(188,665)	(131,123)
- Deficit on account of revaluation of investments held in AFS category	(194,955)	(761,013)
	(383,620)	(892,136)
Total Tier I Capital	8,268,516	8,615,594
Tier II Capital		
General Provisions for loan losses subject to 1.25% of total risk weighted assets		
Total Tier II Capital	336,850	605,082
Eligible Tier III Capital	-	-
Total Regulatory Capital Base (I+II+III)	<u>8,605,366</u>	<u>9,220,676</u>

* includes Rs. 6.046 million (2008: Rs 90.168 million) which pertains to softwares included in capital work-in-progress.

40.3 Capital Adequacy

Capital is generally generated via earnings from operating businesses. This is augmented through investment from the head office. Any excess capital is remitted back. The Capital Management process is governed by the Bank's Asset & Liability Committee (ALCO). ALCO is responsible for managing the Bank's capital position vis-à-vis internal as well as regulatory requirements.

Capital is used primarily to support asset growth in the Bank's businesses and is sufficient to absorb unexpected market, credit or operational losses.

For credit risk, the capital requirement is based on the risk assessment (hereinafter called credit rating) made by External Credit Assessment Institutions (ECAIs) recognized as eligible by SBP for capital adequacy purposes. Bank then assigns a risk weight individually to all its on-balance sheet and off-balance sheet exposures. Risk weights are based on external rating grade or a fixed weight that is broadly aligned with the likelihood of counterparty default.

For market risk, capital is allocated in respect of the exposure to risks deriving from changes in interest rates, in the Banks' trading book, and in respect of exposure to risks deriving from changes in foreign exchange rates in the overall banking activity.

On balance sheet assets held in the trading book are subject to only market risk capital requirements and are not subject to credit risk capital requirement. On balance sheet assets held outside trading book and funded by another currency and unhedged for foreign exchange risk are subject to both credit and market risk capital requirement. Derivatives, unless they are contracted to hedge positions in the banking book are considered part of trading book and are subject to both credit and market risk capital requirement.

Under Basic Indicator Approach, the capital charge for operational risk is a fixed percentage (12.5%) of average positive annual gross income of the Bank over the past three years. Figures for any year in which annual gross income is negative or zero, is excluded from both the numerator and denominator when calculating the average.

The capital requirements for the banking group under the major risk categories is indicated below:

	Capital Requirements		Risk Weighted Assets	
	2009	2008	2009	2008
	------(Rupees in '000)-----			
Credit Risk

41 RISK MANAGEMENT

The overall risk management framework relies upon the Bank's internal entity wide standards and covers credit, market, operational and liquidity risks, including undertaking, measuring, monitoring and reporting of risks. It may be noted that:

- These standards are governed by specific policies which are defined and documented.
- Risks are measured using defined methodologies.
- Limits for credit, market and liquidity risks are approved by Risk Management, which is "independent" of the business areas.
- Dedicated risk management and control functions are in place for credit (Corporate and Consumer), market, liquidity and operational risks.

Additionally, Risk Management maintains oversight of the regulatory, economic, reputational and legal risks associated with the above-mentioned risk areas.

41.1 Credit risk

This represents the potential for financial loss resulting from the failure of a borrower or counterparty to honour its financial or contractual obligations arising out of activities which include lending, sales and trading, derivatives, securities transaction and settlement.

41.1.1 Corporate credit risk

This risk is managed through the following:

- Single centre of control for each credit relationship that coordinates credit activities with the borrower.
- Documented target market and portfolio concentration limits that establish the credit appetite and minimum acceptable standards (both borrower and industry specific), provide portfolio diversification and maintain risk / capital alignment.
- Consistent standards for credit origination, documentation and remedial management.
- Maintenance of accurate and consistent borrower risk ratings through use of statistical models (periodically validated) or approved scoring methodologies after taking into consideration the available credit risk mitigants.
- Periodic stress testing of the credit portfolio based on emerging or expected risk events.

41.1.2 Consumer credit risk

Independent credit risk management is responsible for establishing the Consumer credit policy, approving specific policies and procedures, providing ongoing assessment of Consumer portfolio risk and approving new products. The Consumer Credit Cycle management entails the following:

- Product approval.
- Consistent and prudent underwriting standards.
- Robust account management policies to manage the portfolio.
- Efficient collection and recovery unit to ensure acceptable loss norms.
- Reliable and accurate Management Information System to support informed decision making.
- Effective anti-fraud controls to minimize fraud losses.

41.1.3 Credit Risk - General Disclosures Basel II Specific

The Bank has adopted standardised approach of Basel II for calculation of capital charge against credit risk in line with SBP requirement.

41.1.4 Credit Risk: Disclosures for portfolio subject to the Standardised Approach

Under standardized approach the capital requirement is based on the credit rating assigned to the counterparties by the External Credit Assessment Institutions (ECAIs) duly recognized by SBP for capital adequacy purposes. In this connection, Bank utilizes the credit ratings assigned by ECAIs and has recognized agencies such as PACRA (Pakistan Credit Rating Agency), JCR-VIS (Japan Credit Rating Company - Vital Information System), Moody's and Standard & Poors which are also recognized by the SBP.

Types of exposures and ECAI's used:

Exposures	JCR-VIS	PACRA	Standard & Poors	Moody's
Corporate	✓	✓	N/A	N/A
Banks	✓	✓	✓	✓
SME's	✓	✓	N/A	N/A
Public Sector Entities (PSEs)	✓	✓	N/A	N/A

Use of ECAI Ratings

The Bank prefers solicited ratings over unsolicited ratings at all times, owing to the greater degree of accuracy (in general) associated with solicited ratings as compared to unsolicited ratings. Unsolicited ratings may only be used in cases where a solicited rating is not available.

Mapping to SBP Rating Grades

The selected final ratings (after application of the principles stated above) for all exposures need to be translated to the standard rating grades given by the SBP. In this regard, the mapping tables to be used for converting ECAI ratings to SBP rating grades are given below:

Long – Term Rating Grades Mapping

SBP Rating grade	Fitch	Moody's	S & P	PACRA	JCR-VIS	ECA Scores
1	AAA	Aaa	AAA	AAA	AAA	0
	AA+	Aa1	AA+	AA+	AA+	1
	AA	Aa2	AA	AA	AA	
2	AA-	Aa3	AA-	AA-	AA-

S3	F3	P-3	A-3	A-3	A-3
S4	Others	Others	Others	Others	Others

41.1.5 Credit Exposures subject to Standardised approach

For exposure amounts after risk mitigation subject to the standardized approach, amount of bank's/DFI's outstanding (rated & unrated) in each risk bucket as well as those that are deducted are as follows:

Exposures	Rating Category	2009			2008		
		Amount Outstanding	Deduction CRM	Net amount	Amount Outstanding	Deduction CRM	Net amount
------(Rupees '000)-----							
Corporate	1	5,573,315	(33,248)	5,540,067	14,591,102	(476,490)	14,114,612

CRM= Credit Risk Mitigation

41.1.6 Credit Risk: Disclosures with respect to Credit Risk Mitigation for Standardized Approach

The Bank has adopted the Simple Approach of Credit Risk Mitigation for the Banking Book. In instances where the Bank's exposure on an obligor is secured by collateral that conforms to the eligibility criteria under the Simple Approach of CRM, then the Bank reduces its exposure under that particular transaction by taking into account the risk mitigating effect of the collateral for the calculation of capital requirement i.e. risk weight of the collateral instrument securing the exposure is substituted for the risk weight of the counter party.

The Bank accepts cash, lien on deposits, government securities under the simple approach of Credit Risk Mitigation. The Bank has in place detailed guidelines with respect to valuation and management of various collateral types. In order to obtain the credit risk mitigation benefit, the Bank uses realizable value of eligible collaterals to the extent of outstanding exposure.

Counterparty ratings are obtained through the two local SBP authorized External Credit Rating Agencies; JCR VIS and PACRA and other international sources such as Standard and Poor's and Moody's. Credit risk assessment and the continuous monitoring of counterparty and portfolio credit exposures is carried out by the Credit Risk Management function.

The wholesale portfolio, which includes corporate and commercial are ideally collateralized by cash equivalents, fixed and current assets including property plant and equipment and land. Loans to individuals are typically secured by autos for car loans and private or income producing real estate is secured by a mortgage over the relevant property.

41.1.7 Credit concentration risk

Credit concentration risk arises mainly due to concentration of exposures under various categories viz. industry, geography, and single/group borrower exposures. Within credit portfolio, as a prudential measure aimed at better risk management and avoidance of concentration of risks, the SBP has prescribed regulatory limits on banks' maximum exposure to single borrowers and group borrowers.

*Contingent liabilities for the purpose of this note includes direct credit substitutes, transaction related contingent liabilities and trade related contingent liabilities.

Total assets employed include intra group items of Rs.2,654.894 million (2008: Rs. 7,234.204 million).

41.2 Market risk

Market risk is the risk of losses arising from fluctuation in the market value of trading and non-trading portfolios. The primary sources of market risk are fluctuation in interest rates and foreign exchange rates.

Market risk is measured in accordance with the Bank's established standards, under which the business is required to establish, with approval from independent market risk management, a market risk limit framework, including risk measures, limits and controls, that clearly defines approved risk profiles and is within the parameters of the Bank's overall risk appetite. In all cases, businesses are ultimately responsible for the market risk they take and for remaining within their defined limits.

The Bank's principal measure of earnings risk to earnings from non-trading portfolios due to interest rate changes is Interest Rate Exposure (IRE). This measures the change in expected Net Interest Revenue from changes in market rates of interest. Market risk in trading portfolios is measured through a complementary set of tools, including factor sensitivities, value-at-risk and stress testing.

The Bank uses the Standardized Approach to calculate capital charge for market risk as per the current regulatory framework under Basel II. This approach covers the Bank's trading portfolios, comprising off-balance sheet transactions including derivatives and securities classified under the trading portfolio.

41.2.1 Foreign exchange risk

Foreign Exchange Risk is the risk of loss resulting from adverse movement in exchange rates. The Bank's principal exchange rate related contracts are forward foreign exchange conducts, cross currency swaps and options. Non traded foreign exchange risk arises through the provision of banking products and services in foreign currency. The objectives of foreign exchange risk management function is to minimise the adverse impact of foreign exchange assets and liabilities mismatch and maximise the earnings observing the limits set by the Bank. Exchange position arising from trading activities are monitored through foreign exchange limits on aggregate and individual basis. Hedging strategies and mark to market valuations are used to mitigate exchange risk resulting from open positions. Overall exchange position risk is maintained in accordance with the regulatory requirements prescribed by the State Bank of Pakistan.

The analysis below represents the concentration of the Bank's foreign currency risk for on and off balance sheet financial instruments.

-----2009-----

* Includes head office capital account in United States dollar, unremitted profit and deficit on revaluation of assets in Pakistan Rupees.

41.2.2 Equity position Risk

The risk arising from taking long or short positions, in the trading book, in the equities and all instruments that exhibit market behaviour similar to equities. The Bank does not maintain equity trading portfolio.

41.2.3 Mismatch of Interest Rate Sensitive Assets and Liabilities

Yield risk is the risk of decline in earnings due to adverse movement of the yield curve.

Interest rate risk is the risk that value of the financial instrument will fluctuate due to changes in the market interest rates. Sensitivity to the interest rate risk arises from mismatches of financial assets and liabilities and off-balance sheet financial instruments that mature or reprice in a given period. The bank manages these mismatches through risk management strategies where significant changes in gap positions can be adjusted.

The position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date. The position for off-balance sheet financial instruments is based on settlement dates.

Total liabilities as per balance sheet	<u>81,255,385</u>	<u>92,638,755</u>

41.3 Liquidity Risk

Liquidity risk is the potential for loss of the Bank arising from either its inability to meet its obligations or to fund increases in assets as they fall due without incurring any un acceptable losses.

A uniform liquidity risk management policy exists for the Bank, under which there is a single set of standards for the measurement of liquidity risk. Management of liquidity is performed on a daily basis by the Treasurer and is monitored by independent risk management with oversight by Country Asset and Liability Committee (ALCO). The objective of ALCO is to monitor and review the overall liquidity and balance sheet positions of the bank.

An annual funding and liquidity plan is approved by ALCO and independent risk management team. The plan includes analysis of the balance sheet, as well as the economic and business conditions impacting the liquidity of the bank. As part of the plan, liquidity limits, ratios and triggers are established and approved.

41.3.1 Maturities of Assets and Liabilities - Based on contractual maturity of the assets and liabilities of the Bank

41.4 Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or systems, or from external events. Operational risk is inherent in the Bank's activities and as with other risk types is managed through an overall framework with checks and balances that include recognised ownership of the risk by the businesses, independent risk management oversight and independent review by corporate audit. The operational risk policy codifies the core governing principles for operational risk management and provides a framework for operational risk. In accordance with the policy, each business area is responsible to identify its key operational risks as well as the controls established to mitigate those risks and to ensure compliance with laws, regulations, regulatory administrative actions and the Bank's policies.

The operational risk policy and its requirements facilitate the effective communication of operational risks both within and across businesses. Information about the businesses' operational risk, historical losses and the control environment is reported by each major business segment and functional area and summarised for senior management.

The Bank has created a strategic framework for information security technology initiatives and has implemented enhancements to various Information Security programs across its business covering Risk Management, Security Incident Response and Electronic Transportable Media. The Bank also implemented tools to increase the effectiveness of its data protection and entitlement management programs.

The business continuity program provides risk analysis and robust support for business resiliency. The office of Business Continuity, with the support of the senior management continued to coordinate preparedness and mitigate business continuity risks by reviewing and testing recovery procedures.

42 NON - ADJUSTING EVENT AFTER THE BALANCE SHEET DATE

Subsequent to the year end, the Bank has announced closure of its four branches during the first quarter.

43 DATE OF AUTHORISATION

These financial statements were authorised for issue on March 29, 2010 by the management of the Bank.
