

Executive Summary

This annual publication of *International Investment Position of Pakistan* presents Pakistan's foreign liabilities & assets position as on December 31, 2015. The publication is enhanced version of our former publication *foreign liabilities & assets and foreign investment in Pakistan*. The areas covered in the framework of IIP are direct investment, portfolio investment, financial derivatives and other investment on both liabilities and assets sides while reserves on assets side only. Other investment comprises of other equity; currency and deposits; loans; insurance, pension and standardized guarantee schemes; trade credits and advances; other accounts receivable/ payable and special drawing rights (net incurrence of liabilities). Foreign Direct Investment has come out as not only a major source of much needed capital but is also considered to be a major channel for access to advance technologies, organizational and managerial skills. Pakistan being a developing country requires foreign assistance for its developmental projects as well as meeting the saving investment gap. The IIP statement also provides details of all financial assets and liabilities on gross basis and net IIP shows what a country owns and what it owes to the rest of the world.

Overall net IIP of Pakistan shows that its worth has decreased from US\$ -76,339.4 million on December 31, 2014 to US\$ -76,701.2 million on December 31, 2015. There is an increase of 21.6 percent in external financial assets in 2015. Direct investment abroad which is 6.3 percent of the total assets has increased by US\$ 76.6 million or 4.3 percent during 2015. Portfolio investment abroad which is 1.1 percent of the total assets has decreased by US\$ 60.1 million or 15.5 percent during 2015. Reserve assets of Pakistan increased by 66.3 percent share in total assets have increased by 34.6 percent or US\$ 4,993.9 million during 2015.

Direct investment in Pakistan which is 32.5 percent of the total liabilities increased from US\$ 33,192.6 million to US\$ 34,426.7 million and in absolute term by US\$1,234.0 million in 2015. On the other hand portfolio investment in Pakistan which is 10.2 percent of the total liabilities has increased by 0.5 percent from US\$ 10,706.2 to US\$ 10,760.8 or by US\$ 54.6 million during the year. External loans which account for 51.1 percent of the total liabilities have increased from US\$ 50,418.6 million to US\$ 54,195.1 million or by US\$ 3,776.5 million or 7.5 percent from the previous year.

As part of initiatives for further improving the coverage and data quality the Statistics & DWH Department conducts Coordinated Direct Investment Survey (CDIS) on annual basis from year 2009. The CDIS provides comprehensive information on direct investment, disaggregated by instruments, by counterpart economies of immediate investors and ultimate controlling parent (UCP) along with other relevant information needed for IIP compilation. The stock data on FDI based on UCP concept has been prepared and can be seen at table 2.7. For easy access by the users, the publication is also available on our website <http://www.sbp.org.pk/publications/IIPP/index.htm>
