### **Our Vision**

To be an independent and credible central bank that achieves monetary and financial stability and inclusive financial sector development for the long-term benefit of the people of Pakistan.

# Preface

Statistics and Data Warehouse Department (SDWD) of the State Bank of Pakistan (SBP) makes all efforts to publish quality statistics with minimum time lag. The publication “Annual Banking Statistics of Pakistan” is a reflection of one such effort in this regard. This publication covers 10-year data on multiple aspects of the financial sector of Pakistan and is widely used by policy makers and researchers working in different disciplines.

The publication is divided into three different parts – assets/liabilities and liquidity position of SBP and scheduled banks; financial reports of SBP, SBP-Banking Services Corporation (SBP-BSC) and scheduled banks; and financial reports of microfinance banks (MFBs), development finance institutions (DFIs), and investment banks (IBs). Each part possesses its own significance. Recently, SDWD excluded some data tables from this publication to avoid duplication of such tables with SBP half yearly publication “Statistics on Scheduled Banks in Pakistan” available on SBP website ([https://www.sbp.org.pk/departments/stats/Sch\\_bank.htm](https://www.sbp.org.pk/departments/stats/Sch_bank.htm)).

This publication is based on the annual data of SBP, SBP-BSC, and those received from scheduled banks, MFBs, DFIs, and IBs operating in Pakistan. The quality of data has been improved significantly over the years. We appreciate the efforts of the team in compiling this valuable publication. Comments and suggestions for further improvements in the publication are welcome.
