#### 1. Introduction

State Bank of Pakistan introduced Roshan Digital Accounts (RDA) facility in September 2020 for non-resident Pakistanis (NRPs). With the introduction of this initiative, NRPs can now remotely open the accounts with designated Pakistani banks and operate through online system for banking services such as transferring money, making payments for utilities, education, and other services, and investment in Pakistan. Opening RDA is a paperless activity and does not require any personal visit to any bank branch. Once a customer submits the required set of basic information/documents digitally, the banks are required to complete the due diligence and the account opening procedure within 48 hours.

Roshan Digital Accounts (RDA) can be opened as a NRP (Non-resident Pakistani) Rupee Value Account (NRVA) or a Foreign Currency Value Account (FCVA). Funds to NRVAs are credited by converting FCY to PKR. FCVA facility is available to both non-resident Pakistanis and those resident Pakistanis who have declared their assets abroad with FBR.

Since its introduction, facility has been attracting a large amount of inflows with a monthly average of above USD 200 million. By the end of March 2022, total RDA inflows reached about \$4.0 billion through around 400,000 RDA accounts, in conventional as well as Islamic banks, opened from 175 countries. The funds attracted under RDA accounts are mainly utilized for investment in Naya Pakistan Certificates (NPCs). However, RDA utilization in investment in Pakistan Stock Exchange is also picking up. NRPs can purchase property in Pakistan using their own balance in RDA.<sup>2</sup>

As the RDA are new types of accounts, it is natural to ask how inflows and utilization under RDA are recorded in the Balance of Payments statistics of Pakistan. The note addresses this question and explains how different inflows into RDAs and utilizations from RDAs are being recorded under relevant heads in Pakistan's balance of payments statistics, which is being compiled following International Monetary Fund (IMF) Balance of Payments Compilation Manual Edition 6 (BPM6)<sup>3</sup>. The note has five sections: the next section gives data reporting framework of Roshan Digital Accounts; third section explains the recording mechanism of transactions in RDA accounts as per IMF's BPM6 and the fourth section attempts to show recording inflows and utilization of RDA funds using a tree diagram approach. The last section concludes the note.

<sup>&</sup>lt;sup>1</sup> Relevant SBP notifications for RDA are FE Circular No. 01 and 02 of 2020 dated August 05, 2020.

<sup>&</sup>lt;sup>2</sup> NRPs can avail borrowing from Pakistani banks under Roshan Apna Ghar Scheme for house building/purchase purpose (in Pakistan). Moreover, they can buy a car under Roshan Apni Car scheme for their beloved ones in Pakistan. These facilities are available under both the conventional and sharia compliant modes of financing. With Roshan Samaji Khidmat scheme NRPs can contribute in the charity affairs and perform religious obligations of Qurbani / payment of zakat through a portal link.

### 2: Data Reporting Framework:

Overall Balance of Payments comprises three main accounts: financial, capital and current account. The RDA flows may affect all three accounts of the Balance of Payments depending upon types of receipts and nature of the usage of funds. Funds received in Roshan Digital Accounts (RDA) can be inflows in Foreign Currency Value Accounts (FCVAs) or NRP Rupee Value Accounts (NRVAs) of Pakistanis working abroad and from resident Pakistanis who have 'declared assets' abroad (Figure 1).

Currency Value
Account
(FCVA)

Resident
Non-Resident
Non-Resident
Non-Resident

Data on RDA flows are reported by banks to SDWD of SBP on a given format (Annexure A). Every month the banks report activities relating to RDA including number of accounts, inward remittances, transfer of funds, investment made through these accounts in government securities, cash withdrawal, or other payments.

Banks are required to report FCVAs and NRVAs separately. Moreover, banks also report bifurcation of investment and disinvestment made from non-resident rupee value account. This report also includes profit earned from government securities, dividend received from stock market shares, rental income and other proceeds.

#### 3: Recording mechanism in BoP Statistics

Like all other international transactions, the inflows and outflows of RDA are also reported through double entry system in the Balance of Payments statistics. As shown in **Table 1**, funds received in RDA appear in both the liabilities and assets side of the Financial Account. Inflows in the RDA, increase the foreign exchange reserves of commercial banks, which is also reflected in the country's total foreign exchange reserves.

In the Balance of Payments, Financial Account is the first component, which is hit by RDA inflows. All inflows in NRVAs and FCVAs (Non-resident) are recorded in the Financial account as Other Liability under Currency and Deposits of Banks with a corresponding increase in (Currency and Deposits) assets of banks.

Subsequently, when RDA funds are utilized for various purposes, their impact is taken in other components depending on the nature of outflows from RDA. For example, if amount is withdrawn from RDA and used to invest in government securities (e.g., Naya Pakistan Certificates), then following four heads are affected:

- (1) Reduction in Financial Account Other Liabilities Currency and Deposits (**Banks**)
- (2) Addition in Financial Account Other Liabilities Currency and Deposits (Government)
- (3) Reduction in foreign exchange Reserve (Banks)
- (4) Addition in Reserve Assets (SBP)

Currently a large amount of inflows in RDA accounts are being invested in Naya Pakistan Certificates, which offer attractive profits on both conventional and Sharia compliant instruments. With investment in Naya Pakistan

Certificates, the amount of investment shifts from FX reserve of commercial banks to SBP reserves (simultaneously, an equivalent amount in Pakistani currency is made available to Government). Therefore, investment in NPC does not affect total foreign exchange reserves of the country.

Outflows from these accounts are recorded as decrease in financial liability of banks with a corresponding decrease in FX reserves of banks.

It may be noted that resident Pakistanis who have declared assets abroad can also open Foreign Currency Value Account (FCVA) with banks in Pakistan. The inflows in FCVA accounts of resident Pakistanis are resident transactions; hence they are not recorded in Balance of Payments.

Table 1: BOP Treatment of RDA Transactions<sup>4</sup>

| Flows reported  | Two- sided BOP Transactions  |  |  |  |
|---|--|--|--|--|
| Funds Received in RDA (with Bank)   | Financial Account-Other Liabilities- Currency & Deposits –Banks (+)        | Financial Account -Other Assets- Currency & Deposits -Banks (+)            |  |  |
| Withdrawal from RDA and investment in GOP Securities                      | Financial Account -Other<br>Liabilities- Currency &<br>Deposits –Banks (-) | Financial Account -Other<br>Liabilities- Currency &<br>Deposits –Govt. (+) |  |  |
| Naya Pakistan Certificate etc.)   | Other Assets- Currency & Deposits –Banks (-)                               | Reserve Assets -SBP (+)  |  |  |
| Withdrawal from RDA for the purpose of investment in Stocks Market –Funds | Financial Account -Other Liabilities- Currency & Deposits –Banks (-)       | Financial Account -Portfolio<br>Investment Liabilities (+)                 |  |  |

Note: The signs "+"\"-" denote credit/debit in Current and Capital Accounts and increase/ decrease in Asset/Liability in Financial Account.

<sup>&</sup>lt;sup>4</sup> It is pertinent to mention here that BoP statement is a flow statement and the stock position of financial account of BoP is presented in International Investment Position (IIP) which is regularly compiled by SDWD of SBP (on quarterly frequency). At any point in time, IIP shows the value of financial assets and liabilities of resident of an economy with non-residents. IIP is prepared adding opening position to a) flows arising from transactions and b) other changes in financial assets and liabilities (resulting from other changes in volume and revaluation) during the current period of time to reach closing position. All RDA related flows, recorded in financial accounts of BoP, are thus simultaneously recorded in IIP. For example, a part of inflows in RDAs which is invested in Naya Pakistan Certificates by non-residents Pakistanis, is recorded as 'other investment' in IIP being liability of government of Pakistan.

| Outward Remittance or<br>Repatriation from RDA                                | Financial Account -Other<br>Liabilities- Currency &<br>Deposits -Banks (-) | Financial Account -Other Assets- Currency & Deposits -Banks (-) |
|---|--|---|
| Utilization under Roshan<br>Samaji Khidmat                                    | Financial Account -Other Liabilities- Currency & Deposits –Banks (-)       | Secondary Income Account –<br>Other Current Transfers (+)       |
| Withdrawal from RDA for local use (cash, bill payments, etc.                  | Financial Account -Other Liabilities- Currency & Deposits –Banks (-)       | Current Account- Other<br>Current Transfers (+)                 |
| Withdrawal from RDA for the purpose of investment in property and real estate | Financial Account -Other<br>Liabilities- Currency &<br>Deposits –Banks (-) | Capital Account- Capital Transfers (+)                          |

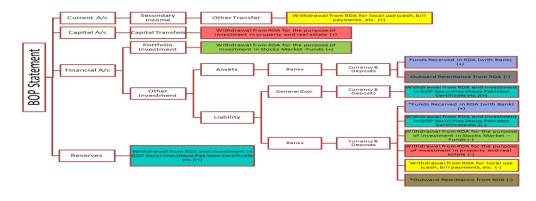

RDA holders may avail financing for house and car in Pakistan. Any sale proceeds of property/car purchased through borrowing from banks within Pakistan cannot be remitted abroad<sup>5</sup>. The BoP treatment of financing against Roshan Apna ghar and Roshan Apni Car will be:

- (1) Capital Account –Capital transfers –Other Sectors –Credit (+) and
- (2) Financial Account –Other Investment -Other Assets –Loans -Banks (+)

# 4: Tree Diagram approach

Another way of looking at the recording of transactions in RDA is a tree diagram given below. The color scheme followed in this diagram represents similar color of one type of transactions. Every color appears twice in the diagram which shows that every transaction is recorded under two heads (i.e., in double entry system).

Figure 2: Tree Diagram showing BOP Treatment of RDA Transactions

<sup>&</sup>lt;sup>5</sup> FE Circular No. 12 of 2021 dated August 27, 2021.

Note: The signs "+"\"-" denote credit/debit in Current and Capital Accounts and increase/ decrease in Asset/Liability in Financial Account.

# 5: Concluding remarks

Roshan Digital Account is a facility, mainly for non-resident Pakistani, to open a bank account in designated Pakistani banks 'remotely', to make their routine payments in Pakistan and/or to make investments here in the country. All the inflows into and outflow from RDAs are recorded in BoP statement of Pakistan as RDAs flows hit country's FX reserves. Inflow into RDA initially hits financial account of BoP statement and thus country's FX reserves. Whereas outflows from RDA are recorded in current, capital or financial account of the BoP statement as per nature of the withdrawal transactions.
