P: Provisional R:Revised

Source: Pakistan Bureau of Statistics

1. The series may not be comparable with similar series given in earlier reports due to revisions by the Pakistan Bureau of Statistics.
2. The figures of exports and imports used in this table are based on trade statistics which are compiled on the basis of actual entry of imports and actual exit of exports from the country. The deficit on the current account of the balance of payment computed from these data does not equal the estimates of external resource inflow provided by Planning Division (Table -2.4) as the latter is based on Balance of Payment data compiled on the basis of Payments for imports and receipts from exports.
3. The figure of net factor income from abroad given in the table includes the imputed value of accompanied personal baggage whereas Planning Division's estimates of this variable (Difference of national and domestic savings given in Table-2.4) exclude personal baggage. Hence the two figures are not comparable.
