**STATE BANK OF PAKISTAN**  
STATISTICS AND DATA SERVICES DEPARTMENT

# Preface

State Bank of Pakistan (SBP) produces reliable and timely statistics pertaining to central banking and related areas of interest for the use of policy makers, researchers, academia and other national and international stakeholders. The Monthly Statistical Bulletin (MSB) is a reflection of one of such efforts. This publication provides a wide range of data disseminated in one place, most of which is also available on the websites of the respective data producers such as SBP and Pakistan Bureau of Statistics (PBS). It is available on the SBP website at:

[https://www.sbp.org.pk/reports/stat\\_reviews/Bulletin/index.htm](https://www.sbp.org.pk/reports/stat_reviews/Bulletin/index.htm). To further facilitate the users, data tables are provided in MS excel format. Moreover, for most of the tables we have also provided links to archives of respective datasets at the end of relevant tables.

Readers are also encouraged to use SBP EasyData ([easydata.sbp.org.pk](http://easydata.sbp.org.pk)), an intuitive and interactive data portal from where one can access, download and plot time-series data from a collection of more than eighteen thousand variables. Recently, we have upgraded the EasyData and introduced new features including a notice board, information on related datasets, most viewed series during selected period and a new API to retrieve a complete dataset. SBP EasyData users are encouraged to subscribe to email notifications for staying updated on important data releases and new features. Readers are also encouraged to explore various dashboards available on our EasyData portal, including, workers' Remittances, Inflation Snapshot, Financial Statement Analysis and Pakistan's Economic Interaction with Other Countries.

Notes:

- Total advances shown in assets may differ from advances presented in table 3.8 (Scheduled Banks Advances) due to inclusion of interbank advances and accrued interest on advances.
- Total deposits shown in liabilities may differ from deposits presented in table 3.2 (Scheduled Banks Deposits) due to inclusion of interbank deposits, placements, margin deposits (deposits held by banks as collateral against letter of credits, letter of guarantees), bills payables and accrued interest on deposits.
- Effective March 2025, Easypaisa Bank Ltd. has been included in scheduled banks (and, former, Telenor Microfinance Bank has been excluded from MFBS). It has resulted a sort of structural break in data, particularly, on number of deposits/advances accounts.
- This data has been collected on the new format w.e.f. December 2022 and being published on quarterly basis w.e.f. March 2023.

3. 'No of Accounts' represents the total number of deposit accounts which fall in the respective class.

4. 'Amount' represents the total amount of all deposits falling in the particular class.

5. This Data is being published on quarterly basis w.e.f. March, 2023.

6. Effective March 2025, Easypaisa Bank Ltd. has been included in scheduled banks (and, former, Telenor Microfinance Bank has been excluded from MFBS). It has resulted a sort of structural break in data, particularly, on number of deposits/advances accounts.

Notes:

1. Classification of size wise advances has been improved by collecting data from all Scheduled banks based on actual size of each and every account. Previously, it was based on estimates by average size
2. The upper limits of the range is exclusive of amounts e.g. Rs. 500,000 to 750,000 stands for Rs. 500,000 and over but less than Rs. 750,000
3. 'No of Accounts' represents the total number of advances accounts which fall in the respective class.
4. 'Amount' represents the total amount of all advances falling in the particular class.
5. This Data is being published on quarterly basis w.e.f. March 2023.
6. Effective March 2025, Easypaisa Bank Ltd. has been included in scheduled banks (and, former, Telenor Microfinance Bank has been excluded from MFBs). It has resulted a sort of structural break in data, particularly, on number of deposits/advances accounts.

Notes:

- Gross disbursements mean the amounts disbursed by Financial Institutions (FIs) either in pak rupees or in foreign currency against loans during the month. It also includes loans repriced, renewed or rolled over during the month. In case of running finance, the disbursed amount means the total amount availed by the borrower during the month.
- Foreign currency deposits/loans are first converted into pak rupees at the prevalent exchange rates of the last day of the reporting month.
- Loans (Disbursed & Outstanding) mean all types of FIs's advances including working capital finance and disbursements against payments of documents i.e. Letters of credit, inland bills etc. but excluding foreign bills. Advances cover all types of advances including inter FIs placements. Interest accrued is not a disbursement and therefore it is not considered as loan. Nano Loans of MFBs are not included.
- All disbursements made to non-residents, private sector, public sector and government are included.
- All credit facilities such as credit cards, personal loans etc. and credit schemes such as LMM, export finance scheme and commodity operations are included.
- Outstanding loans mean the loans recoverable at the end of the month. Weighted Average rates of advances and deposits have been compiled by:
  - Including advances and deposits at zero markup of return, i.e. non-remunerative advances and deposits
  - Excluding advances and deposits at zero markup of return, i.e. non-remunerative advances and deposits
- Deposits include all types of deposits including inter FIs deposits and placements. Margin deposits (deposits held by FIs as collateral against letters of credits, letters of guarantees etc.) are however, not included.
- Fresh deposits means deposits collected during the month. It also includes deposits re-priced / rolled-over deposits during the month.
- Outstanding deposits show position of deposits held by FIs at the end of the month.
- "Public" stands for Public Sector Banks - the banks incorporated in Pakistan or the shares/capital controlled by the federal and /or provincial governments, "Private" stands for Private Sector Banks incorporated in Pakistan, owned and controlled by private sector, "Foreign" stands for the branches of banks working in Pakistan but incorporated abroad and "Specialized" stands for Specialized Banks established to provide credit facilities, assistance and advice to clients in a designated sector or in a designated line of credit; for example, agriculture sector, industrial sector, etc.
- DFIs stands for Development Finance Institutions and MFBs stands for Microfinance Banks.
- Effective July 2024, Financial Institutions (FIs) means all types of financial institutions.
- Weighted Averages have been worked out by weighting interest rates by the corresponding amounts of loans/deposits. The formula used is:

$$\text{Weighted Average Rate} = \frac{\sum (\text{Rate} * \text{Amount})}{\sum (\text{Amount})}$$

\* A REER index of 100 should not be misinterpreted as denoting the equilibrium value of the currency. 100 merely represents the value of the currency at a chosen point in time (in this case the average value of the currency in 2010). Therefore, movement of the REER away from 100 simply reflects changes relative to its average value in 2010 and is unrelated to its equilibrium value.

Notes:

- i. From July 2020, PBS has discontinued the dissemination of CPI on base 2007-08 using which the REER index was calculated, and changed the base to 2015-16. For the compilation of the REER index, therefore, the CPI - Base 2015-16 has been spliced and rebased to 2010 using the IMF's methodology.
- ii. REER indices may be revised due to revisions in base period or splicing factor of CPIs data by PBS.
- iii. Weights and number of trading partners have been updated from Jan, 2016 and revised for Jan, 2013 to Dec, 2015. The REER and NEER have been recalculated since Jan, 2013 using these revised weights and number of trading partners.

For detail, please visit the Revision Study at

<https://www.sbp.org.pk/departments/stats/NEER-REER.pdf>

- iv. Appreciation (depreciation) of REER is sometimes confused with the concept of currency overvaluation (undervaluation) while these are two separate concepts and not necessarily interpreted in the same direction. For an assessment of a country's exchange rate misalignment, a more sophisticated analysis is required taking into account factors such as demographics, external and fiscal sustainability, and some other macroeconomic fundamentals over the medium-term.

**Notes:**

Trade data compiled by Pakistan Bureau of Statistics and State Bank of Pakistan may differ from each other due to the following reasons:

1- The SBP Exports (BOP) & Imports (BOP) include general merchandise, repairs on goods and goods procured on parts by carriers. The SBP export and imports are based on realization of export proceeds and import payments made through the banking channel. Information on exports and imports unaccounted for by the banking channel are collected from the relevant sources and added to the exports/imports data reported by banks to arrive at the overall exports and imports. The trade data of PBS is on the other hand, based on physical movement of goods crossing the custom boundaries of Pakistan.

2- The SBP data is general merchandise based on Balance of Payment Manual (BPM6), whereas PBS data is on Cost, Insurance & Freight (c. i. f.) basis.

Balance of trade statistics compiled by Pakistan Bureau of Statistics is based on physical movements of merchandise goods into and out of the custom territory of Pakistan recorded by the customs authorities. Foreign trade includes exports, re-exports, imports and re-imports carried through sea, land and air routes.

The trade data of SBP, on the other hand, is based on realization of export proceeds and import payments made through banking channel for goods exported and imported. The trade transactions such as in kind foreign economic assistance (Loans/ Grants), purchase of fuel, parts, food etc by Pakistan International Airline (PIA) & Pakistan National Shipping Corporation (PNSC) and personal baggage etc. are not covered in the reporting by the banks. Data on these transactions are collected from the relevant sources and included in the exports receipts and import payments reported by the banks to arrive at the overall trade data. Still, differences may arise in the two sets of trade data due to valuation, timing and coverage of transactions.

**Re-Export**

### **Unit Value & Quantum Indices**

These indices are used to measure changes in the unit value and quantity of Exports & Imports with reference to base year. Laspeyzer's formula is used for the computation of these indices that is as under:

$$\text{Unit Value Index} = \frac{\sum P_n Q_o}{\sum P_o Q_o} \times 100 \qquad \text{Quantum Index} = \frac{\sum Q_n P_o}{\sum P_o Q_o} \times 100$$

Where:

$P_n$  = Price (Unit Value) of each item during the current period

$P_o$  = Price (Unit Value) of each item during the base period

$Q_n$  = Quantity data (Volume) of each item during the current period

$Q_o$  = Quantity data (Volume) of each item during the base period

### **Nominal Effective Exchange Rate**

It is an index of the bilateral nominal exchange rates of Pakistan relative to its major trading partners. The nominal exchange rate index with each trading partner is weighted by that country's share in imports, exports, or total foreign trade.

### **Real Effective Exchange Rate:**

It is an index of the price of a basket of goods in Pakistan relative to the price of major trading partners or basket of currencies. The prices of these baskets should be expressed in the same currency using the nominal exchange rate with each trading partner. The price of each trading partner is weighted by its share in imports, exports, or total foreign trade.

Where

$P_n$  = Price of an item in the current period

$P_0$  = price of an item in base period

$W_i$  = Weight of the  $i^{\text{th}}$  item in the base period.

### **Wholesale Price Index**

GDP of a country is one of the ways of measuring the size of its economy. GDP is defined as the total market value of all final goods and services produced within a given country in a given period of time (usually a year). It is also considered the sum of value added at every stage of production (the intermediate stages) of all final goods and services produced within a country in a given period of time, and it is expressed in monetary terms. Followings are the three approaches to measuring and understanding GDP:

- i. **Expenditure Based**  
Expenditure-based gross domestic product is total final expenditures at purchasers' prices (including the f.o.b. value of exports of goods and services), less the f.o.b. value of imports of goods and services.
- ii. **Income Based**  
Income-based gross domestic product is compensation of employees, plus taxes less subsidies on production and imports, plus gross mixed income, plus gross operating surplus.
- iii. **Output Based**  
Output-based gross domestic product is the sum of the gross values added of all resident producers at basic prices, plus all taxes less subsidies on products.

### **Basic Price**

The basic price is the amount receivable by the producer from the purchaser for a unit of a good or service produced as output minus any tax payable, and plus any subsidy receivable, on that unit as a consequence of its production or sale; it excludes any transport charges invoiced separately by the producer.

### **Gross Value added at Basic Prices**

Gross value added at basic prices is output valued at basic prices less intermediate consumption valued at purchasers' prices.

**Gross National Income**

GNI measures the total economic growth of a country and takes into consideration income and taxes earned both internationally and domestically, while GNP only measures the income and taxes earned by domestic citizens.

**Net National Income**

Net national income (NNI) is the aggregate value of the balances of net primary incomes summed over all sectors is described as net national income.

**Gross Fixed Capital Formation**

The estimates of GFCF in Pakistan are primarily constructed separately for private and public sectors by economic activity as well as by capital assets. It comprises expenditure incurred on the acquisition of fixed assets, replacement, additions and major improvements of fixed capital viz. land improvement, buildings, civil and engineering works, machinery, transport equipment and furniture and fixture.
