SBP Research Bulletin aims at publishing high-quality research in the area of macroeconomics with special emphasis on topics of monetary and exchange rate policies. The Bulletin has two issues in a year: one is regular issue having submissions selected through a blind-refereeing review process by a panel of internationally recognized economists, and the other is a special issue having articles invited on some particular economic theme. The views expressed in the articles, opinions, and other writings included in the Bulletin are of the author(s), and should not be attributed to the advisory board, editors or the State Bank of Pakistan. The accuracy of the statements, findings or analysis of the contributions in the Bulletin is the responsibility of the author(s).
