

Annexure A

Illustrative List of Sectors

All PFIs are advised to be very specific in defining the selected sectors.

Manufacturing, services and trading will not be accepted as the selected sectors since these are very broad categories. PFIs should clearly identify the particular industry or activity that would be facilitated through financing under CGS' sector specific approach.

Following list identifies how specific should be the sectors:

- Mining and Quarrying
- Food and Beverages
- Textile Manufacturing (This may cover spinning, weaving and finishing of textiles, knitwear)
- Carpets and Rugs Manufacturing
- Leather and Leather Products
- Chemicals and Chemical Products
- Sports Goods
- Education
- Glass and Ceramics
- Health
- Auto Parts Manufacturing
- Supermarkets and Retail Shops
- Gems and Jewellery

It is emphasized here that the above list is not exhaustive, and is only provided to elaborate how specific should be the sectors communicated to SBP. PFIs are encouraged to choose any sector that they find feasible.
