BARCLAYS BANK PLC – PAKISTAN BRANCH OPERATIONS

FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2013

Barclays is a trading name of Barclays Bank PLC and its subsidiaries. Barclays Bank PLC is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority (Financial Services Register No. 122702). Registered in England as public limited company. Registered number is 1026167 with registered office at 1 Churchill Place, London E14 5HP.

A. F. FERGUSON & CO.

AUDITORS' REPORT TO THE DIRECTORS

We have audited the annexed statement of financial position of the Pakistan Branches of Barclays Bank PLC, incorporated in England and Wales with limited liability (the Bank), as at December 31, 2013 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof (here-in-after referred to as the 'financial statements') for the year then ended, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Bank's management to establish and maintain a system of internal control, and prepare and present the financial statements in conformity with the approved accounting standards and the requirements of the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984). Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and after due verification, which in case of loans and advances covered more than sixty percent of the total loans and advances of the Bank, we report that:

- (a) in our opinion, proper books of accounts have been kept by the Bank as required by the Companies Ordinance, 1984 (XLVII of 1984);
- (b) in our opinion:
 - (i) the statement of financial position and profit and loss account together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984) and are in agreement with the books of account and are further in accordance with accounting policies consistently applied except for the change as stated in note 3.5 to the financial statements with which we concur;
 - (ii) the expenditure incurred during the year was for the purpose of the Bank's business; and
 - (iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank;
- (c) in our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof conform with the approved accounting standards as applicable in Pakistan, and give the information required by the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), in the manner so required and give a true and fair view of the state of the Bank's affairs as at December 31, 2013 and its true balance of the profit, its comprehensive income, its cash flows and changes in equity for the year then ended; and
- (d) in our opinion Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

SHAZAD G. DADA Chief Executive Officer

BARCLAYS BANK PLC - PAKISTAN BRANCHES (Incorporated in England and Wales with limited liability) NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2013

1 STATUS AND NATURE OF BUSINESS

Barclays Bank PLC, Pakistan Branches (the Bank) operates as a branch of Barclays Bank PLC which is a foreign banking company incorporated and domiciled in England and Wales with limited liability (rated "A", Long term and "A-1", Short term by Standard & Poor's) and is a member of Barclays PLC Group (rated "A-", Long term and "A-2", Short term by Standard & Poor's) which is the ultimate holding company. The Bank is engaged in banking services as described in the Banking Companies Ordinance, 1962 and operates through 7 branches (2012: 7 branches) across Pakistan. The Bank commenced its operations on July 23, 2008. Its registered office in Pakistan is situated at Dawood Centre, M. T. Khan Road, Karachi.

2 BASIS OF PRESENTATION

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan has issued various circulars from time to time. Permissible forms of trade related modes of financing include purchasing of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchase and sale arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and appropriate portion of mark-up thereon.

3 STATEMENT OF COMPLIANCE

- **3.1** These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Ordinance, 1984, the provisions of and directives issued under the Companies Ordinance, 1962 and the directives issued by the Securities and Exchange Commission of Pakistan (SECP) and the State Bank of Pakistan (SBP). In case the requirements differ, the provisions of and directives issued under the Companies Ordinance, 1962 and the directives issued by the Banking Companies Ordinance, 1984, the Banking Companies Ordinance, 1962 and the directives issued by the Securities and Exchange Commission of Pakistan (SECP) and the State Bank of Pakistan (SBP). In case the requirements differ, the provisions of and directives issued under the Companies Ordinance, 1962 and the directives issued by SECP and SBP prevail.
- **3.2** The State Bank of Pakistan has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the Securities and Exchange Commission of Pakistan has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars.
- 3.3 The State Bank of Pakistan vide its BSD Circular No. 7 dated April 20, 2010 has clarified that for the purpose of preparation of financial statements in accordance with International Accounting Standard 1 (Revised) 'Presentation of Financial Statements', two statement approach shall be adopted i.e. separate 'Profit and Loss Account' and 'Statement of Comprehensive Income' shall be presented, and Balance Sheet shall be renamed as 'Statement of Financial Position'. Furthermore, the Surplus / (Deficit) on revaluation of available-for-sale securities (AFS) only, may be included in the 'Statement of Comprehensive Income'. However, the same shall continue to be shown separately in the Statement of Financial Position below equity. Accordingly, the above requirements have been adopted in the preparation of these financial statements.
- 3.4 IFRS 8 'Operating Segments' is effective for the Bank's accounting period beginning on or after January 1, 2009. All banking companies in Pakistan are required to prepare their annual financial statements in line with the format prescribed under BSD Circular No. 4 dated February 17, 2006, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended December 31, 2006. The management of the Bank believes that as the SBP has defined the segment categorisation in the above mentioned circular, the SBP requirements prevail over the requirements specified in IFRS 8. Accordingly, segment information disclosed in these financial statements is based on the requirements laid down by SBP.

3.5 Change in accounting policy arising from standards, interpretations and amendments to published approved accounting standards that are effective in the current year:

3.5.1 IAS 1, 'Presentation of Financial Statements' has been amended effective January 1, 2013. The main change resulting from these amendments is a new requirement for entities to group items presented in 'Other Comprehensive Income (OCI)' on the basis of whether they are potentially reclassifiable to the profit or loss subsequently (reclassification adjustments). The specified change has been reflected in statement of comprehensive income for the year. This change affects presentation only and has no impact on the financial position or performance of the Bank.

3.6 Other standards, interpretation and amendments to published approved accounting standards that are effective in the current year:

There are other new and amended standards, interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 1, 2013 but are considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these financial statements.

3.7 Standards, interpretation and amendments to published approved accounting standards that are not yet effective:

There are certain new and amended standards, interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 01, 2014 but are considered not to be relevant or do not have any significant effect on the Bank's operations and are therefore not detailed in these financial statements.

3.8 Early adoption of standards

The Bank did not early adopt any new or amended standard in 2013.

4 BASIS OF MEASUREMENT

4.1 Accounting convention

These financial statements have been prepared under the historical cost convention except for the measurement of certain investments and derivative financial instruments that have been carried at fair values.

4.2 Functional and presentation currency

The financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.

4.3 Critical accounting estimates and judgements

The preparation of financial statements in conformity with approved accounting standards as applicable in Pakistan requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses. It also requires management to exercise judgement in application of its accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

Significant accounting estimates and areas where judgements were made by the management in the application of accounting policies are as follows:

i)	Classification and valuation of investments	Notes 5.3 and 8
ii)	Classification and provisioning against advances	Notes 5.4 and 9
iii)	Useful lives and residual values of operating fixed assets	Notes 5.5 and 10
iv)	Income taxes	Notes 5.7 and 11
V)	Provision for restructuring	Notes 5.6, 5.8 and 28
vi)	Share based payments	Notes 5.17 and 31

5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

5.1 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement comprise of prize bonds, cash and balances with treasury banks and balances with other banks in current and deposit accounts.

5.2 Lendings to / borrowings from financial institutions

The Bank enters into transactions of re-purchase agreements (repos) and reverse repurchase agreements (reverse repos) at contracted rates for a specified period of time. These are recorded as under:

(a) Sale of securities under repurchase agreements

Securities sold subject to a repurchase agreement (repo) are retained in the financial statements as investments and the counter party liability is included in borrowings. The difference between the sale and contracted repurchase price is accrued on a time proportion basis over the period of the contract and recorded as an expense.

(b) Purchase of securities under resale agreements

Securities purchased under agreement to resell (reverse repo) are not recognised in the financial statements as investments and the amount extended to the counter party is included in lendings. The difference between the purchase and contracted resale price is accrued on a time proportion basis over the period of the contract and recorded as income.

5.3 Investments

5.3.1 Classification

The Bank classifies its investments as follows:

(a) Held for trading

These are investments, which are either acquired for generating a profit from short-term fluctuations in market prices, interest rate movements, dealers margin or are securities included in a portfolio in which a pattern of short-term profit taking exists.

(b) Held to maturity

These are investments with fixed or determinable payments and fixed maturity in respect of which the Bank has the positive intent and ability to hold to maturity.

(c) Available-for-sale

These are investments, that do not fall under the 'held for trading' or 'held to maturity' categories.

5.3.2 Regular way contracts

All purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognised at trade date, which is the date at which the Bank commits to purchase or sell the investment.

5.3.3 Initial recognition and measurement

Investments other than those categorised as 'held for trading' are initially recognised at fair value which includes transaction costs associated with the investment. Investments classified as 'held for trading' are initially recognised at fair value and transaction costs are recognised in the profit and loss account.

5.3.4 Subsequent measurement

In accordance with the requirements of the State Bank of Pakistan, quoted / government securities other than those classified as 'held to maturity' are subsequently re-measured to market value. Surplus / (deficit) arising on revaluation of securities classified as 'available-for-sale', is included in statement of comprehensive income but is taken to a separate account shown in the statement of financial position below equity. Surplus / (deficit) arising on revaluation of securities which are classified as 'held for trading', is taken to the profit and loss account. Investments classified as 'held to maturity' are carried at amortised cost in accordance with the requirements specified by the State Bank of Pakistan.

Unquoted equity securities are valued at the lower of cost and break-up value. Break-up value of equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements.

5.3.5 Impairment

Impairment loss in respect of investments classified as available-for-sale and held to maturity is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. A significant or prolonged decline in fair value of an equity investment below its cost is also considered an objective evidence of impairment. Provision for diminution in the value of term finance certificates is made as per the Prudential Regulations issued by the State Bank of Pakistan. In case of impairment of available-for-sale securities, the cumulative loss that has been recognised directly in surplus / (deficit) on revaluation of securities on the statement of financial position below equity is removed there from and recognised in the profit and loss account. For investments classified as held to maturity the impairment loss is recognised in the profit and loss account.

Gains or losses on disposal of investments are taken to the profit and loss account currently.

5.4 Advances

Advances are stated net of specific and general provisions. Specific and general provisions against advances are made in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan from time to time. The net provision made / reversed during the year is charged to the profit and loss account and accumulated provision is netted-off against advances. Advances are written off when there are no realistic prospects of recovery.

5.5 Operating fixed assets

Property and equipment

Operating fixed assets are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditures that are directly attributable to the acquisition of the items.

Subsequent costs are included in an asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit and loss account in the period in which they are incurred.

Depreciation is calculated so as to write off the depreciable amount of the assets over their expected useful lives at the rates specified in note 10.2 to these financial statements. The depreciation charge for the year is calculated after taking into account residual value, if any, and using the straight line method. The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at each reporting date.

Depreciation on additions is charged from the month the asset is available for use. No depreciation is charged in the month of disposal.

Gains and losses on disposal of fixed assets are taken to the profit and loss account.

Intangible assets

Intangible assets, having a finite useful life, are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised from the month, when these assets are available for use, using the straight line method, whereby the cost of the intangible asset is amortised on the basis of the estimated useful life over which economic benefits are expected to flow to the Bank. The residual values, useful lives and amortisation method are reviewed and adjusted, if appropriate, at each reporting date.

Intangible assets that have an indefinite useful life, for example goodwill, are stated at cost less accumulated impairment losses, if any. They are not subject to amortisation and are tested annually for impairment.

Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under this head. These are transferred to specific assets as and when assets become available for use.

5.6 Impairment

The carrying amounts of assets are reviewed at each reporting date for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. If such indication exists, and where the carrying amount exceeds the estimated recoverable amount, assets are written down to their recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). The resulting impairment loss is taken to the profit and

5.7 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into consideration available tax credit and rebates, if any. The charge for current tax also includes adjustments, where considered necessary relating to prior years, which arises from assessments / developments made during the year.

Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for taxation purposes. In addition, the Bank also recognises deferred tax asset on available tax losses. Deferred tax is calculated at the rates that are expected to apply to the period when the differences are expected to reverse, based on tax rates that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the assets can be utilised.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

The Bank also recognises a deferred tax asset / liability on the surplus / deficit on revaluation of securities, which is adjusted against the related surplus / deficit in accordance with the requirements of the International Accounting Standard 12 - Income Taxes.

5.8 Provisions

Provisions are recognised when the Bank has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

5.9 Employee benefits

Short - term benefits

Short-term employee benefits, such as salaries, allowances, and other benefits, are accounted for on an accrual basis over the period which employees have provided services. Bonuses are recognised to the extent that the Bank has a present obligation to its employees and can be measured reliably.

Defined contribution plan

The Bank has established a defined contribution plan for its permanent employees. A defined contribution plan is a plan under which the Bank pays fixed contributions into a separate entity. The Bank has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay the benefits relating to employee service in the current and prior periods.

The Bank's share of contributions to defined contribution plan are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction on the future payments is available. Any contribution due at the reporting date is included as a liability.

5.10 Borrowings / deposits and their cost

- a) Borrowings / deposits are recorded at the proceeds received.
- b) Borrowing / deposits costs are recognised as an expense in the period in which these are incurred using effective mark-up / interest rate method to the extent that they are not directly attributable to the acquisition of or construction of qualifying assets. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (one that takes a substantial period of time to get ready for use or sale) is capitalised as part of the cost of that asset.

5.11 Revenue recognition

Advances and investments

Mark-up income on performing loans and advances and investments is recognised on a time proportion basis. Where investments are purchased at a premium or discount, those premiums / discounts are amortised through the profit and loss account over the remaining maturity, using the effective interest rate method.

Interest or mark-up recoverable on non-performing advances and classified investments is recognised on receipt basis. Interest / return / mark-up on rescheduled / restructured loans and advances and investments is recognised as permitted by the regulations of the State Bank of Pakistan, except where in the opinion of the management, it would not be prudent to do so.

Fee, commission, and brokerage

Fee, commission and brokerage on letters of credit / guarantee and others are recognised on an accrual basis.

5.12 Acceptances

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. The Bank expects most acceptances to be simultaneously settled with the reimbursement from the customers. Acceptances are accounted for as off balance sheet transactions and are disclosed as contingent liabilities and commitments.

5.13 Foreign currency translation

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Bank operates.

Foreign currency transactions and balances

Transactions in foreign currencies are translated into Pakistani rupees at the foreign exchange rates prevailing on the transaction date. Monetary assets and liabilities in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the reporting date. Forward foreign exchange contracts and foreign bills purchased are valued at forward rates applicable to their respective maturities.

Translation gains and losses

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss account.

Commitments

Commitments for outstanding forward foreign exchange contracts are disclosed at contracted rates. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the reporting date.

5.14 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date at which the derivative contract is entered into and subsequently remeasured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets where fair value is positive and as liabilities where fair value is negative. Any changes in the fair value of derivative financial instruments are taken to the profit and loss account.

5.15 Off-setting

Financial assets and financial liabilities are off-set and the net amount reported in the financial statements only when there is a legally enforceable right to set-off the recognised amount and the Bank intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also off-set and the net amount is reported in the financial statements.

5.16 Segment reporting

A segment is a distinguishable component of the Bank that is engaged either in providing product or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Bank's primary format for reporting is based on business segments.

a) Business segments

The business activities of the Bank are confined to three segments i.e. trading and sales, retail banking and corporate banking. The products and services offered by these segments are as follows:

Trading and sales

Overall management of treasury operations of the Bank.

Branch banking

Deposits & other banking activities for non-corporate customers and management of legacy retail loan portfolio.

Corporate banking

Deposits, trade and lending activities for corporate enterprises.

b) Geographical segments

The operations of the Bank are currently based only in Pakistan.

5.17 Share based payments

The Bank engages in equity settled share-based payment transactions in respect of services received from certain employees. Under these plans, the shares of holding company (Barclays Bank PLC) are granted by the holding company to employees of the Bank. Pursuant to a separate agreement, the Bank makes a cash settlement to the holding company for the value of the share-based incentive awards delivered to the Bank's employees under these plans

The Bank recognises the fair value of the awards at grant date as compensation expense over the vesting period with a corresponding credit in equity as a capital contribution from the holding company. The amount payable to the holding company under the associated obligation is also recognised by debiting the capital contribution in equity.

Fair value of the shares awarded under the stock award program on the grant date is determined with reference to the price quoted on the London Stock Exchange.

11	DEFERRED TAX ASSETS - NET	Note	2013 Rupees i	2012 n '000
	Deferred tax assets - net	11.1	1,098,431	1,173,148
11.1	The balance of deferred tax asset comprises:			
	 Deductible temporary differences on provision against loans and advances accumulated tax losses impairment on assets unrealised deficit on revaluation of securities 	11.2	32,196 1,075,590 12,736 <u>12,025</u> 1,132,547	58,756 1,168,425 12,929 - 1,240,110
	 Taxable temporary differences on accelerated tax depreciation and amortisation unrealised surplus on revaluation of securities 		34,116 	64,142 2,820 66,962 1,173,148

11.2 The Bank has an aggregate amount of Rs. 4,967.053 million (2012: Rs. 5,500.311 million) as unabsorbed tax losses as at December 31, 2013. Out of this amount the management has recognised deferred tax debit balance of Rs. 1,075.590 million (2012: Rs. 1,168.425 million) on losses amounting to Rs. 3,073.113 million (2012: Rs. 3,338.356 million). The management carries out periodic assessment to assess the benefit of these losses as the Bank would be able to set off the profit earned in future years against these carry forward losses. The amount of this benefit has been determined based on the projected financial statements of the Bank for the future periods. The determination of future taxable profit is most sensitive to certain key assumptions such as cost to income ratio of the Bank, deposit composition, interest rates, growth of deposits and advances, investment returns, product mix of advances and potential provision against assets. Any significant change in the key assumptions may have an effect on the realisibility of the deferred tax asset.

21 DERIVATIVE INSTRUMENTS

"Derivative" means a type of financial contract, the value of which is determined by reference to one or more underlying assets or indices. The major categories of such contracts include forwards, futures, swaps and options. Derivative also includes structured financial products that have one or more characteristics of forwards, futures, swaps and options.

The Bank at present does not offer structured derivative products such as Interest Rate Swaps, Forward Rate Agreements or FX Options. However, the Bank's Treasury buys and sells Forward Exchange Contracts.

Forward Exchange Contracts:

Forward exchange contract is a product offered to customer backed by international trading contract. These customers use this product to hedge themselves from unfavorable movements in foreign currencies.

In order to mitigate this risk of adverse exchange rate movements, the Bank hedges its exposure by taking forward position in inter bank market. In addition to this, the exposure is also managed by matching the maturities and fixing the counter parties, dealers, intra-day and overnight limits.

30 BASIC AND DILUTED EARNINGS PER SHARE

The Bank operates as a branch of a foreign entity and does not have share capital. Hence, no figures of basic and diluted earnings per share have been reported in these financial statements.

31 SHARE BASED PAYMENTS

Barclays Group operates share plans for the employees throughout the world. The plans applicable to employees of Pakistan operations are as follows:

Joiner's Share Award Plan

Shares under this plan have been granted to participants in the form of a provisional allocation of Barclays Bank PLC shares which vest at various stages upto four years. Participants do not pay to receive an award or to receive a release of shares.

Incentive Share Plan

Shares under this plan have been granted to participants in the form of a provisional allocation of Barclays Bank PLC shares which vest upon achieving continued services after three years. Participants do not pay to receive an award or to receive a release of shares.

Share Value Plan

Shares under this plan have been granted to participants in the form of a provisional allocation of Barclays Bank PLC shares which vest at various stages upto three years. Participants do not pay to receive an award or to receive a release of shares. The expense of the plan is being recognised in the books of Pakistan operations with effect from March 16, 2010.

Global Share Purchase Plan

Shares under this plan have been granted to participants in the form of a provisional allocation of Barclays Bank PLC shares which vest upon achieving continued services after three years. Under the plan participants are required to buy shares of Barclays Bank PLC. Upon purchase by an employee equal amount of shares are allocated in favour of employee subject to maximum limit specified. The expense of the plan is being recognised in the books of Pakistan operations with effect from August 2011.

34 EMPLOYEE BENEFITS

34.1 Provident Fund

The Bank operates a contributory provident plan for its employees. The plan covers all permanent employees as at December 31, 2013. Contributions to the fund are made at 10% of basic salary both by the Bank and the employees.

	2013 Rupees	2012 in '000
Contribution by the Bank	20,151	28,480
Contribution by the employees	20,151	28,480
	40,302	56,960

34.2 Gratuity Fund

The Bank has defined contribution gratuity scheme covering all permanent employees. Under the scheme contributions are made only by the Bank at 8.33% of basic salary of the employee. During the year, the Bank contributed Rs 17.139 million (2012: Rs 21.935 million) to the fund.

35 COMPENSATION OF CHIEF EXECUTIVE OFFICER AND EXECUTIVES

		20	13	2012	
		Chief		Chief	
	Note	Executive	Executives	Executive	Executives
		Officer		Officer	
			Rupees i	n '000	
Managerial remuneration	35.1	31,144	232,345	28,549	328,894
Contribution to defined contribution plans		3,806	28,522	3,488	39,935

		46,566	303,189	44,364	419,655
Number of persons		1	131	1	189

- **35.1** The Chief Executive Officer is provided with free use of the Bank's cars and household equipment.
- **35.2** In addition to the above, the Bank also provides shares based payment benefits, long term and short term cash award / bonus incentives which are payable on completion of prescribed period of service and performance evaluation. Details regarding these benefits are disclosed in note 26.3 and 31 to these financial statements. During the year payment amounting to Rs 177.276 million (2012: Rs 203.884 million) was made under these schemes.

36 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value of a financial instrument is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

The following table summarises the carrying amounts of on-balance sheet financial assets and liabilities and offbalance sheet financial instruments.

On-balance sheet financial instruments

	Note	2013		2012		
		Carrying value	Fair value	Carrying value	Fair value	
			Rupees	in '000		
Assets

Other assets - net	36.1	465,339	465,339	353,121	353,121	
		50,664,684	50,384,852	45,905,861	45,597,026	
Liabilities						
Bills payable	36.1	1,026,442	1,026,442	521,584	521,584	
Borrowings	36.1	4,824,884	4,824,884	9,291,803	9,291,803	
Deposits and other accounts	36.4	38,234,983	38,234,983	30,053,968	30,053,968	
Other liabilities	36.1	1,070,375	1,070,375	946,971	946,971	
		45,156,684	45,156,684	40,814,326	40,814,326	
		20 ⁻	13	201	2	
		Notional principal	Fair value	Notional principal	Fair value	
			Rupees	in '000		
Off-balance sheet financial instruments						
Forward purchase of foreign exchange - net		9,864,295	9,780,025	2,395,821	2,405,478	
Forward sale of foreign exchange - net		8,529,360	8,422,237	2,448,928	2,443,769	

- 36.1 Fair value approximates carrying amount due to the short-term nature of these on-balance sheet financial assets and liabilities.
- 36.2 The fair value of investments are based on rates quoted in Reuters Pages (PKRV).
- 36.3 Except for staff advances, the fair value of advances approximates carrying value because the instruments are either short-term in nature or have interest rates that reprice frequently. Fair value of staff loans is lower as they are given at below-market interest rates in accordance with the terms of employment.
- 36.4 The fair value of deposits and other accounts approximates carrying value because they are short-term in nature.

40 CAPITAL - ASSESSMENT AND ADEQUACY BASEL SPECIFIC

The State Bank of Pakistan (SBP) has introduced new guidelines with respect to disclosure of capital adequacy related information in the financial statements of Banks vide its communication dated February 4, 2014. These disclosures are based on the requirements of Basel III which were introduced earlier by the SBP in August 2013 for implementation by Banks in Pakistan. The SBP has specified a transitional period till 2018 for the implementation of Basel III. The comparative information is as per Basel II requirements which were applicable last year.

40.1 Capital Management

The objective of managing capital is to safeguard the Bank's ability to continue as a going concern, so that it could continue to generate adequate returns by pricing products and services commensurately with the level of risk. The Bank manages capital with the goal of optimally using its capital in relation to business development plans, market competitiveness and overall risk profile. The Bank aims to be compliant with the State Bank of Pakistan's directives on capital adequacy.

Statutory minimum capital requirement and management of capital

The State Bank of Pakistan through its BSD Circular No. 07 dated April 15, 2009 has prescribed the minimum paidup capital (net of losses) for Banks / Development Finance Institutions to be raised to Rs.10 billion by the year ended December 31, 2013. The raise was to be achieved in a phased manner requiring Rs. 10 billion capital (net of losses) by the end of the financial year 2013. However, branches of foreign banks operating in Pakistan whose head office holds paid-up capital (free of losses) of atleast US\$ 300 million, have a CAR of 8% or minimum prescribed by the home regulator and have prescribed number of branches, are allowed to maintain lower amount with prior approval of SBP. In this regard the Bank has obtained SBP's approval to maintain minimum required capital of Rs. 6 billion (net of losses) effective December 31, 2010.

The Head office capital account (net of losses) of the Bank for the year ended December 31, 2013 stands at Rs 7.245 billion and is in compliance with the SBP requirement for the said year. In addition the banks are also required to maintain a minimum Capital Adequacy Ratio (CAR) of 10% of the risk weighted exposures of the Bank. The Bank's CAR as at December 31, 2013 was 31.70% of its risk weighted exposure.

40.2 Capital Structure

Under Basel III framework, Bank's regulatory capital has been analysed into two tiers as follows:

- Tier 1 capital (going concern capital) which is sub divided into:
 - a) Common Equity Tier 1 (CET1), which includes Head office capital account, general reserves and accumulated losses, after deduction of deficit on revaluation of available-for-sale investments and book value of intangibles.
 - b) Additional Tier 1 capital (AT1), which includes instruments issued by the Bank which meet the specified criteria after certain specified deductions.

Presently the Bank does not have any AT1 Capital.

- Tier II capital, which includes general provisions for loan losses (upto a maximum of 1.25% of credit risk weighted assets) and reserves on revaluation of available for sale investments (upto a maximum of 45% net of tax).

The calculation of capital adequacy enables the Bank to assess the long-term soundness. As the Bank carries on the business, it is critical that it is able to continuously monitor the exposure across the entire organization and aggregate the risks so as to take an integrated approach / view.

The allocation of capital between specific operations and activities is, to a large extent driven by the optimisation of the return achieved on the capital allocated. Although maximisation of the return on risk-adjusted capital is the principal basis used in determining how capital is allocated within the Bank to particular operations or activities, it is not the sole basis used for decision making. Account also is taken of synergies with other operations and activities, etc. and the fit of the activity with the Bank's long-term strategic objectives. The Bank has complied with all externally imposed capital requirements through out the year. Further, there has been no material change in the Bank's management of capital during the year.

40.3 Capital adequacy ratio

The capital to risk weighted assets ratio, calculated in accordance with the SBP guidelines on capital adequacy, under Basel III and Pre-Basel III treatment using Standardised Approach for Credit and Market Risk and Basic Indicator Approach for Operational Risk is presented below:

		20	13	2012
Particulars	Note	Amount	Pre - Basel III treatment*	Basel II treatment
			Rupees in '000 -	
Common Equity Tier 1 capital (CET1): Instruments and reserves

to internal ratings-based approach (prior to application of cap)	-	-

- Cap for inclusion of provisions in Tier 2 under internal ratings-based approach

40.4 Capital Adequacy

Capital is generally generated via earnings from operating businesses. This is augmented through investment from the head office. The Capital Management process is governed by the Bank's Asset & Liability Committee (ALCO). ALCO is responsible for managing the Bank's capital position vis-à-vis internal as well as regulatory requirements.

-

Capital is used primarily to support asset growth in the Bank's businesses and is sufficient to absorb unexpected market, credit or operational losses.

For credit risk, the capital requirement is based on the risk assessment (hereinafter called credit rating) made by External Credit Assessment Institutions (ECAIs) recognized as eligible by SBP for capital adequacy purposes. Bank then assigns a risk weight individually to all its on-balance sheet and off-balance sheet exposures. Risk weights are based on external rating grade or a fixed weight that is broadly aligned with the likelihood of counterparty default.

For market risk, capital is allocated in respect of the exposure to risks deriving from changes in interest rates, in the Banks' banking book, and in respect of exposure to risks deriving from changes in foreign exchange rates in the overall banking activity.

Under the Basic Indicator Approach, the capital charge for operational risk is a fixed percentage (12.5%) of average positive annual gross income of the Bank over the past three years. Figures for any year in which annual gross income is negative or zero, is excluded from both the numerator and denominator when calculating the average.

The eligible capital to risk weight assets ratio, calculated in accordance with State Bank's guidelines on the capital adequacy is as follows :

	_		13	2012		
	-		Risk		Risk

40.6 Main features of regulatory capital instruments

41 RISK MANAGEMENT

Risk management is a fundamental part of Bank's business activity and an essential component of its planning process. To keep risk management at the centre of the executive agenda, it is embedded in the everyday management of the business.

The Bank's risk management objectives are:

- Identify the Bank's significant risks;
- Formulate the Bank's risk appetite and ensure that the business profile and plans are consistent with it;
- Optimise risk/return decisions by taking them as closely as possible to the business, while establishing strong and independent review and challenge structures;
- Ensure that business growth plans are properly supported by effective risk infrastructure;
- Manage the risk profile to ensure that specific financial deliverables remain possible under a range of adverse business conditions; and
- Help executives improve the control and coordination of risk taking across the business.

41.1 Credit risk

Credit risk is the risk of suffering financial loss, should any of the Bank's customers, clients or market counterparties fail to fulfill their contractual obligations to the Bank. It arises mainly from commercial and consumer loans and advances and loan commitments arising from such lending activities, but can also arise from the credit enhancement products it provides, such as financial guarantees, letters of credit, endorsements and acceptances. The Bank is also exposed to other credit risks arising from investments in debt securities, settlement balances and exposures to interbank counterparties.

41.1.1 Credit risk management objectives and policies

The granting of credit is one of the Bank's major sources of income and therefore carries one of its most significant risks. The Bank dedicates considerable resources to control credit risk effectively.

Bank has structured the responsibilities of credit risk management so that decisions are taken as close as possible to the business, whilst ensuring robust review and challenge of performance, risk infrastructure and strategic plans. The credit risk management team formulates risk policy and manages its implementation across

Specific credit risk management objectives are:

- To gain a clear and accurate understanding and assessment of credit risk across the business, from the level of individual facilities up to the total portfolio.
- To control and plan the taking of credit risk, ensuring it is coherently priced across the business and avoiding undesirable concentrations.
- To support strategic growth and decision-making based on sound credit risk management principles and a pro-active approach to identifying and measuring new risks.
- To ensure a robust framework for the creation, use and ongoing monitoring of the Bank's credit risk measurement models.

41.1.2 Credit risk measurement

The principal objective of credit risk measurement is to produce the most accurate possible quantitative assessment of the credit risk to which the Bank is exposed, from the level of individual facilities up to the total portfolio. The Bank uses statistical modeling techniques throughout its business in its credit rating systems. These systems assist the Bank in frontline credit decisions on new commitments and in managing the portfolio of existing exposures. They enable a coherent approach to risk measurement across all credit exposures, retail and commercial. The key building blocks in the measurement system are the probability of customer default (PD), exposure in the event of default (EAD), and severity of loss-given-default (LGD).

The Bank may also incorporate credit ratings assigned by external credit assessment institutions, i.e. JCR-VIS Credit Rating Co. Limited and The Pakistan Credit Rating Agency Limited while making credit decisions.

The mapping of credit rating grades to credit quality description is as follows:

External rating	Internal rating	Credit quality description
AAA to BBB-	1 - 9	Strong
BB+ to B	10 -18	Satisfactory
B- and lower	19 - 21	Weak / Substandard

41.1.3 Credit risk mitigation, collateral, security, and other credit enhancements

The Bank uses a wide variety of techniques to reduce credit risk on its lending. The most important of these is performing an assessment of the ability of a borrower to service the proposed level of borrowing. The Bank's policy is to establish that loans are within the customer's capacity to repay, rather than to rely excessively on

Credit risk mitigation

The Bank actively manages its credit exposures. When weaknesses in exposures are detected – either in individual exposures or in groups of exposures – it takes action to mitigate the risks. Such actions may, for example, include; reducing the amounts outstanding (in discussion with the customers, clients or counterparties if appropriate).

The Bank maintains the diversification of its portfolio to avoid unwanted credit risk concentrations. Maximum exposure guidelines are in place relating to the exposures to any individual counterparty. These permit higher exposures to higher-rated borrowers than to lower-rated borrowers. They also distinguish between types of counterparty, for example, between sovereign governments, banks and corporations. Excesses are considered individually at the time of credit sanctioning, and are reviewed regularly.

Collateral and security

Collateral and security is an important mitigant of credit risk. The Bank routinely obtains collateral and security, such as in the case of a residential mortgage, a reverse repurchase agreement, or a commercial loan with a floating charge over book debts and inventories.

The Bank ensures that any collateral held is sufficiently liquid, legally effective, enforceable and regularly reassessed. Before attaching value to collateral, businesses holding specific, agreed classes of collateral must ensure that they are holding a correctly perfected charge.

The principal collateral and security types are mortgages over residential properties, charges over business assets such as premises, stock and debtors, cash, and third party credit protection (i.e. guarantees). Valuation of the collateral and security taken is within agreed parameters. Before reliance is placed on third party protection in the form of bank, government or corporate guarantees, a credit assessment is undertaken.

41.1.4 Maximum exposure to credit risk before collateral held or other credit enhancements

For financial assets recognised on the balance sheet, the exposure to credit risk equals their carrying amount, except for cash and stamps on hand, which are not exposed to credit risk. For financial guarantees granted, the maximum exposure to credit risk is the maximum amount that Bank would have to pay if the guarantees were to be called upon. For loan commitments and other credit related commitments that are irrevocable over the life of the respective facilities, the maximum exposure to credit risk is the full amount of the committed facilities.

41.1.5 Credit risk - General disclosures Basel III specific

The Bank has adopted standardised approach of Basel III for calculation of capital charge against credit risk in line with SBP requirement.

41.1.5.1 Credit risk: Disclosures for portfolio subject to Standardised Approach

Under standardised approach the capital requirement is based on the credit rating assigned to the counterparties by the External Credit Assessment Institutions (ECAIs) duly recognised by SBP for capital adequacy purposes. In this connection, Bank utilises the credit ratings assigned by ECAIs such as PACRA (Pakistan Credit Rating Agency), JCR-VIS (JCR-VIS Credit Rating Company Limited), Standard & Poor's and Moody's.

41.1.5.2 Types of exposures and ECAIs used

Exposures	PACRA	JCR-VIS	S&P and Moody's
Sovereigns other than PKR claims	-	-	~
Public sector entities	~	~	-
Banks	~	~	~
Corporates	~	~	-

Use of ECAI Ratings

The Bank prefers solicited ratings over unsolicited ratings at all times, owing to the greater degree of accuracy (in general) associated with solicited ratings as compared to unsolicited ratings. Unsolicited ratings may only be used in cases where a solicited rating is not available.

Mapping to SBP Rating Grades

The alignment of the Alphanumerical scale of each agency used with risk buckets is as per instructions laid down by SBP under Basel III requirements.

41.1.5.4 Credit Risk: Disclosures with respect to Credit Risk Mitigation for Standardized Approach

The Bank has adopted the Simple Approach of Credit Risk Mitigation for the Banking Book. In instances where the Bank's exposure on an obligor is secured by collateral that confirms to the eligibility criteria under the Simple Approach of CRM, then the Bank reduces its exposure under that particular transaction by taking into account the risk mitigating effect of the collateral for the calculation of capital requirement i.e. risk weight of the collateral instrument securing the exposure is substituted for the risk weight of the counter party.

The Bank accepts cash, lien on deposits, government securities under the simple approach of Credit Risk Mitigation. The Bank has in place detailed guidelines with respect to valuation and management of various collateral types. In order to obtain the credit risk mitigation benefit, the Bank uses realisable value of eligible collaterals to the extent of outstanding exposure.

Counterparty ratings are obtained through the two local SBP authorized External Credit Rating Agencies; JCR VIS and PACRA and other international sources such as Standard and Poor's and Moody's. Credit risk assessment and the continuous monitoring of counterparty and portfolio credit exposures is carried out by the Risk Management function.

41.1.6 Concentration

A concentration of credit risk exists when a number of counterparties are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions.

In addition to analysis of credit risk concentration of advances, analysis is also presented for deposits and contingencies and commitments.

41.2 Market risk

Market risk is the risk arising from movements in market variables such as interest rates, exchange rates and equity indices. The Bank recognises market risk as the exposures created by potential changes in market prices and interest rates. Market risk exposures arise primarily from interest rate and foreign exchange related contracts. The Bank has no exposure to equity or commodity risk.

Barclays market risk objectives are to:

- Understand and control market risk by robust measurement and the setting of position limits.
- Facilitate business growth within a controlled and transparent risk management framework.
- Minimise non-traded market risk.

Market risk is a principal risk of the Bank and its overall management takes place at Group level. Group Executive Committee (Exco) through the principal risk policy, has set out guidelines for managing the market risk and a market risk control framework has been established to meet the requirements of the principal risk policy. The Bank is required to manage its market risk in compliance with this framework. The market risk exposures are measured and monitored independently by the middle office function and reported accordingly to the Bank's Business and Risk Management both locally and at cluster and Group levels.

The Bank has established risk appetite and limits for all market risks. Bank estimates its market risk using a Group Market Risk approved risk measurement method and reports its market risk exposures to Group Market Risk in agreed formats and at agreed frequencies. Bank provides assurance to Group Market Risk that their market risk capability is robust, their controls are effective and that the quality of data used for risk management purposes meets minimum standards.

The Bank uses the Standardised Approach to calculate capital charge for market risk as per the current regulatory framework under Basel III.

41.2.1 Yield / Interest rate risk

Yield risk is the risk of decline in earnings due to adverse movements of the yield curve. Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates.

Interest rate risk arises from the provision of retail and wholesale banking products and services, as well as structural exposures within the Bank's balance sheet. The Bank's interest rate risk management policies ensure that the interest rate risk is primarily limited to the banking book, which is monitored through approved AEaR and IR stress limits. All loans except for personal loans and staff loans are based on variable prices with up to annual resets. Meanwhile the Bank aims to maintain the liability book with a mix of fixed-rate term deposits, non-interest bearing current and interest-bearing savings deposits.

41.2.1.2 Reconciliation of assets and liabilities exposed to yield / interest rate risk with total assets and liabilities:

	2013 Rupees	2012 in '000
Total financial assets as per note 41.2.1.1 Add: Non financial assets	50,664,684	45,905,861
Operating fixed assets	475,496	513,034
Deferred tax assets	1,098,431	1,173,148
Other assets - net	164,045	186,224
Total assets as per statement of financial position	52,402,656	47,778,267
Total financial liabilities as per note 41.2.1.1 Add: Non financial liabilities	45,156,684	40,814,326
Other liabilities	23,163	139,757
Total liabilities as per statement of financial position	45,179,847	40,954,083

41.2.2 Foreign exchange risk

Foreign Exchange Risk is the risk of loss resulting from changes in exchange rates. The Bank's principal foreign exchange related contracts include ready, spot, forward and swap foreign exchange contracts. Non-traded foreign exchange risk arises through the provision of banking products and services in foreign currency.

The objectives of foreign exchange risk management function is to minimise the adverse impact of foreign currency assets and liabilities mismatches and maximise the earnings observing the limits set by the Bank. The Bank manages its foreign exchange risks by matching its foreign currency assets and liabilities. The Bank also monitors its net foreign currency exposure in accordance with regulatory limits i.e. Foreign Exchange Exposure Limits (FEEL) set by State Bank of Pakistan.

41.2.3 Equity position risk

Equity position risk is the risk arising from taking long or short positions, in the trading book, in the equities and all instruments that exhibit market behaviour similar to equities. The Bank does not maintain equity portfolio and therefore has no equity risk.

41.3 Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its obligations when they fall due and to replace funds when they are withdrawn, with consequent failure to repay depositors and fulfill commitments to lend.

Liquidity risk is managed by treasury under supervision of the Country's ALCO. Overall ALCO's framework is based on the Group's common terms of reference and policies along with adoption of good practices across the

Bank's sources of liquidity are regularly reviewed to maintain a wide diversification by currency, provider, product and term. In addition, to avoid reliance on a particular set of customers or market sectors. The distribution of sources and the maturity profile of deposits are also carefully managed. Important factors in assuring liquidity are competitive rates and the maintenance of depositors' confidence. The Bank also maintains a portfolio of highly marketable assets including government securities that can be sold or funded on a secured basis as protection against any unforeseen interruption to cash flow. The Bank accesses secured funding markets in these assets on a regular basis to ensure market access. The Bank does not rely entirely on committed funding lines for protection against unforeseen interruption to cash flow.

41.3.1 Maturities of Assets and Liabilities - Based on behavioral pattern of assets and liabilities of the Bank

The maturity profile set out below has been prepared on the basis of behavioral pattern of assets and liabilities.

The above maturity profile is prepared based on contractual maturities. Consequently, all demand assets and liabilities such as running finance, current accounts and saving accounts are shown as having maturity of up to one month. However based on behavioral pattern, the possibility of these inflows / outflows actually occurring entirely within one month is remote.

41.4 Operational risk

Operational Risk is the risk of direct or indirect losses resulting from inadequate or failed internal processes or systems, human factors, or from external events. The Bank's businesses are dependent on the ability to process a large number of transactions efficiently and accurately. Operational risks and losses originate from business / operational process failure, IT security failure, natural disasters, dependence on key suppliers, fraud, service quality compromised, regulatory non-compliance, loss of key staff, social and environmental impacts. The Bank seeks to ensure that key operational risks are managed in an effective and timely manner through a framework of policies, procedures and tools to identify, assess, monitor, control and report such risks.

Operational Risk Objectives

The management of Operational Risk has two key objectives:

- To reduce the impact of losses we suffer in our normal course of business (expected losses) and reduce the likelihood of suffering a large extreme (or unexpected) loss.
- To help the Barclays Group run more effectively / efficiently and provide improved customer service.

Operational Risk Framework

To meet our Operational Risk objectives the Bank has created the Operational Risk and Control Framework which sets out the mandatory requirements for the management and control of Operational Risks in the Barclays Group. The framework comprises of following individual components that, when implemented, drive consistency in the Operational Risk approach across all the business areas.

The components are:

- Risk and Control Assessment
- Key Risk Indicators (KRI)
- Risk Event Reporting

Risk & control assessment structure is ingrained in each business function which helps in ensuring identification of key risks, mitigating controls, testing of effective design and operation of these controls on a continuous basis by business units themselves along with monitoring of highlighted deficiencies and their remediation.

Key Risk Indicators (KRI) are used to actively monitor the key risks across various business units of the Bank.

Risk event reporting helps to identify circumstances where internal controls were not designed correctly or did not operate as intended and to reduce recurrence of such events through appropriate remedial actions.

The Bank has adopted the Basic Indicator Approach (BIA) for calculating operational risk capital charge under Basel III framework. The capital charge is calculated by multiplying the average positive annual gross income of the Bank over the past three years by a fixed percentage of 15%.

Business Continuity and IT controls / system security

Business continuity management (BCM) is an integral part of Bank and has been rigorously deployed throughout the organisation. The main objective of BCM is to protect all stakeholders by minimising impact of a significant disruption, recover business in a controlled manner and ensure Business Continuity as an essential part of business planning and development.

Ownership for BCM is delegated to senior management across every function. With the BCM unit acting as a central resource, they have to ensure adequate awareness within their ranks as well as communicate their requirements for business continuity.

IT Security & IT Controls

The objective of IT Security is to ensure that the security applied to Bank's IT resources, whether internally or externally sourced, adequately safeguards and protects Bank's business interests and assets, supports its control requirements and maintains its reputation. When utilising IT resources it is, therefore, essential that Bank retains ownership and control of its information.

The key steps taken to achieve confidentiality, integrity and availability of information are ensured by implementation of following IT Security Controls:

- System Monitoring
- Cryptography
- Logical Access Management
- Change & Patch Management
- Incident Management
- Electronic Communications IT Security Controls
- Secure External Transfer of Data
- Malicious Code IT Security Controls
- Network IT Security Controls
- Systems Support IT Security Controls

42 DATE OF AUTHORISATION

These financial statements were authorised for issue on March 28, 2014 by the management of the Bank.

43 GENERAL

43.1 Comparatives

Comparative information has been re-classified, re-arranged or additionally incorporated in these financial statements, wherever necessary to facilitate comparison and to conform with changes in presentation in the current year.

43.2 Figures have been rounded off to the nearest thousand rupees.
